User Manual - Vendor Management System

1. Summary

This Vendor User Manual provides step-by-step guidance for using the Afreximbank **Vendor Management System (VMS)**¹. It is designed to help you navigate the entire engagement lifecycle, from registration to contracting. Whether you are registering for the first time or submitting a proposal, this manual ensures you understand how to interact with the platform efficiently.

By following the instructions outlined in this guide, you will be able to:

- Register and manage their profile
- Upload all required KYC and company documents
- Undergo internal clearance³ and compliance checks
- Submit proposals for open procurement opportunities¹²
- Receive feedback
- Participate in contract engagement

For best results, please ensure that your documents are valid, complete, and uploaded in the correct format.

2. Vendor Onboarding and Management

This section guides you through the onboarding² process, starting from receiving your invitation to completing your vendor profile. By following these steps, you will set up your account and submit the required documentation.

This process ensures that you are fully registered and eligible to participate in procurement opportunities with Afreximbank.

2.1. Receiving an Invitation

The first step to using the Vendor Management System is to receive an invitation from the Afreximbank team or sign up directly on the system by visiting <https://vendors.afreximbank.net/vendor/login>.

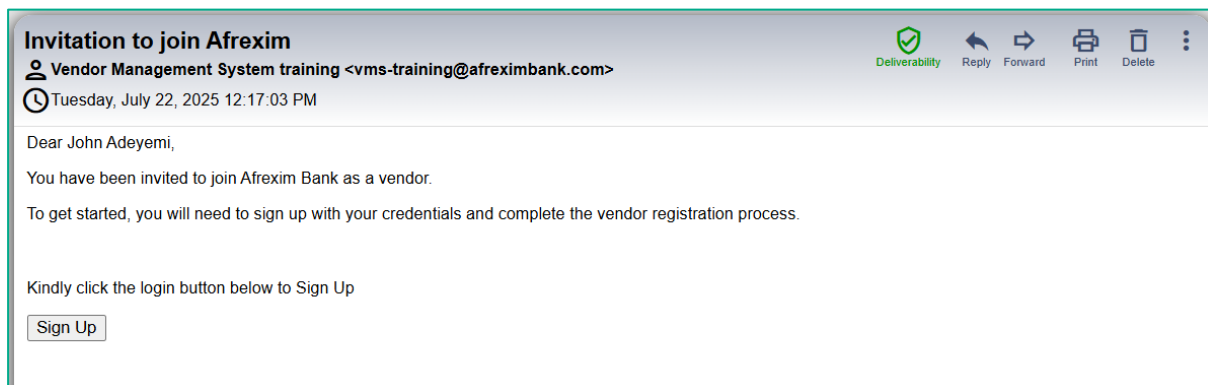

Figure 1: Vendor Invitation Email

2.2. Vendor Registration

The registration process involves several quick steps to create your vendor account.

Follow these steps carefully to ensure a smooth setup:

2.2.1. Visit the Sign-Up Page

- Open the Invitation email.
- Click on the **Sign-Up** button in the invitation email.

User Manual - Vendor Management System

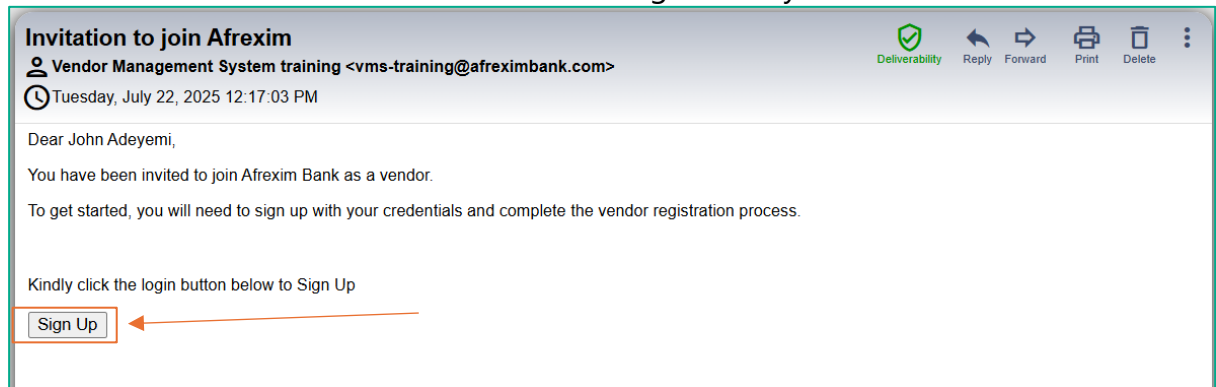

Figure 2: Vendor Invitation Email

- Select Registration Type:
 - Click **Individual** to register as an individual vendor.
 - Click **Corporate** to register as a corporate vendor.

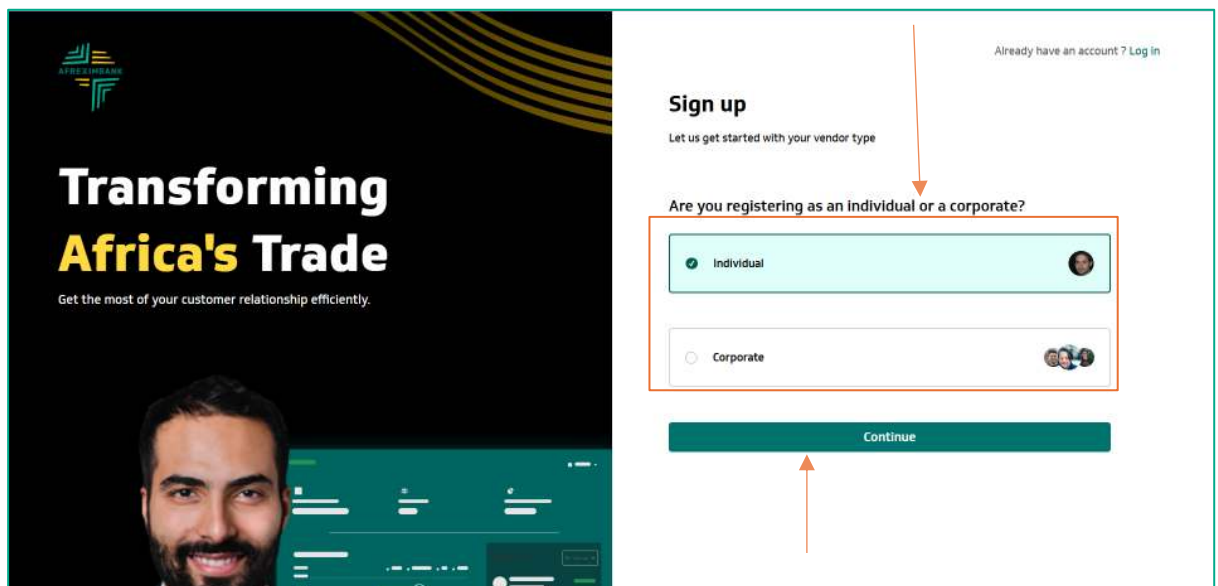

Figure 3: Vendor registration type

2.2.2. Fill in Registration Details

- Enter your **Last Name**, **First Name**, and **Username (Email)**.
- Provide your **Vendor Name** (Company or Business Name).
- Indicate whether you're a business owner by selecting **Yes** or **No**.

2.2.7. Verify Registration

- Open the verification email you received after registration.
- Click the **Verify Account** button within the email.

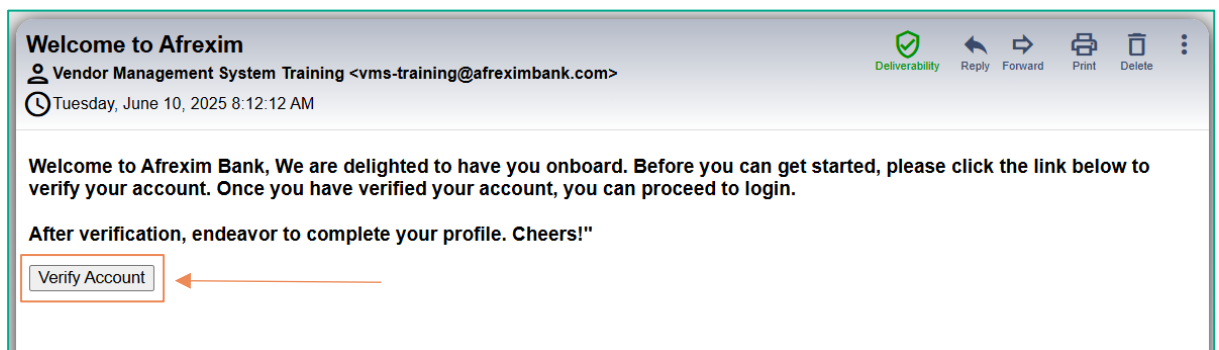

Figure 10: Vendor confirmation email

- You should receive a confirmation on the screen.

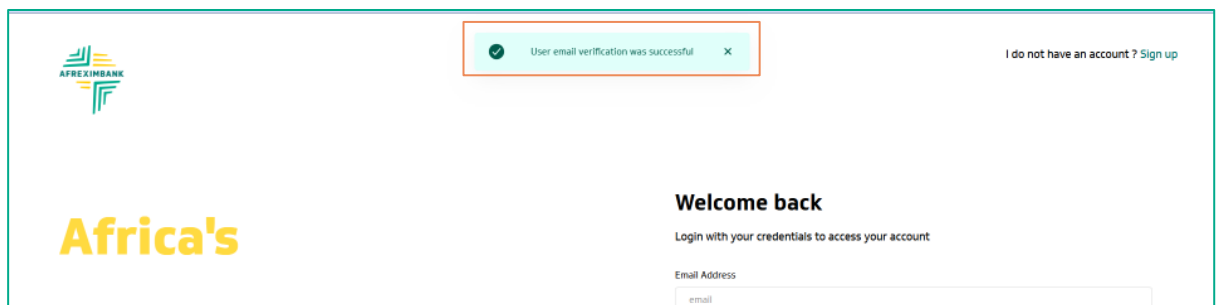

Figure 11: Vendor confirmation notice

2.3. Complete Vendor Registration

With your account verified, the next step is to complete your full registration. This includes providing your business details, uploading documents, and submitting your profile for review.

2.3.1. Access the Profile Section

- Navigate to the left menu and click on **Profile**.
- A pop-up will appear prompting you to begin your registration. Click **Get Started**.

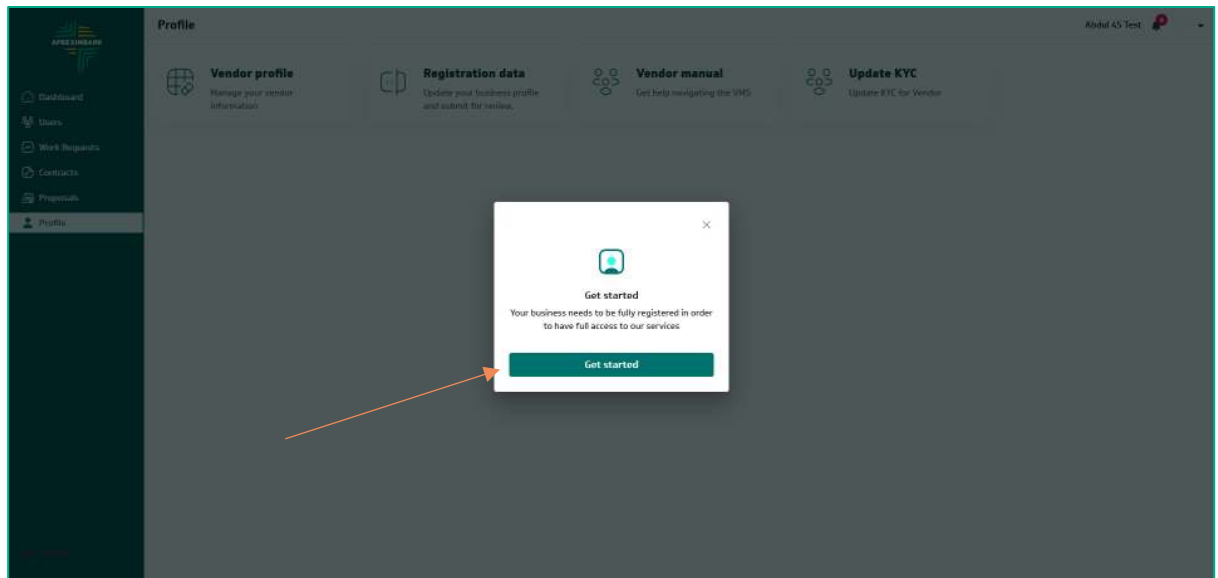

Figure 12: Get started with vendor registration

2.3.2. Complete Biographical Information

- Fill in your **Name**, **Country of Citizenship**, and **Date of Birth**.

User Manual - Vendor Management System

- Click **Save and continue**.

The screenshot shows the 'Profile / Vendor Registration' page for a user named 'Test Abdul'. The left sidebar contains a menu with options: Dashboard, Users, Work Requests, Contracts, Proposals, and Profile (which is highlighted). The main content area displays a list of steps for registration: 01 Biographical Information, 02 Contact Details, 03 Business Information, 04 Bank Details, 05 Work Requests, 06 Documents, 07 Declaration and Signature, and 08 Review and submit. The 'Biographical Information' step is active and highlighted with a yellow circle. A red box highlights the 'Biographical Information' form, which includes the following fields: 'Name of Individual' (filled with 'John Adeyemi'), 'Country of Citizenship' (filled with 'Nigeria'), and 'Date of birth' (filled with '03/02/1989'). A 'Save and continue' button is located at the bottom right of the form. Two red arrows point to the 'Save and continue' button from the right side of the page.

Figure 13: Vendor biographical information

2.3.3. Enter Contact Details

- Provide your **phone number**, **email address**, and **physical address**, including postal code and building details.
- Under **Invoice Confirmation Contacts**, provide the details of the individuals authorised to confirm invoices and banking information on behalf of your organisation. A minimum of two contacts is required, and you can add up to five.
- For each contact, enter the **Contact Name**, **Job title / Position**, **Direct Landline Number** and **Mobile Phone Number**. Select the country code for each phone number. All four fields are mandatory.
- To select a country code, click the **Country code** box, start typing the country name and select it from the list. If your country is not shown, type only the first few letters of its name.

Figure 21: Vendor business or employment information continuation

2.3.5. Enter Bank Details

- Fill in your **bank name, account number, account name, country**, and **SWIFT code**.

User Manual - Vendor Management System

- The system checks the **Swift code** as soon as you enter it. If the code cannot be found, **Invalid SWIFT code** appears under the field and the message **SWIFT code not found.** is displayed. Confirm the code with your bank and enter it again.

The screenshot displays the 'Profile / Vendor Registration' page for a user named 'Melanie R Al-hassan'. The left sidebar contains navigation links: Dashboard, Users, Work Requests, Contracts, Projects, Proposals, and Profile (which is highlighted). The main content area shows a multi-step registration process. The 'Bank Details' step is active, indicated by a yellow circle. The form includes fields for 'Access Bank Plc', 'Bank account number' (0681234578), 'Vendor account name' (Melanie R Al-Hassan), 'Bank country' (Nigeria), and 'Bank Currency' (USD). The 'Swift code' field contains 'ABNGXXLA123' and is highlighted with a red border. Below this field, a red error message 'Invalid SWIFT code' is displayed. Other fields include 'IBAN' (with a placeholder 'Enter number'), 'Intermediate bank name' (placeholder 'Enter bank name'), 'Intermediate account number' (placeholder 'Enter account no'), and 'Intermediate swift code' (placeholder 'Enter swift code'). A top navigation bar shows the user's name 'Melanie Reece' and a dropdown arrow.

Figure 22: Vendor bank details with an invalid SWIFT code

- When a valid code is entered, the message clears. An eight-character SWIFT code is saved in its eleven-character form, with **XXX** added at the end. For example, ABNGNGLA is saved as ABNGNGLAXXX.

User Manual - Vendor Management System

The screenshot shows the 'Profile / Vendor Registration' page for user 'Melanie R Al-hassan'. The left sidebar contains navigation links: Dashboard, Users, Work Requests, Contracts, Projects, Proposals, and Profile (selected). The main content area shows a progress bar with steps 01 to 08. Step 04, 'Bank Details', is the active section. It contains several input fields: 'Access Bank Plc', 'Bank account number' (0691234578), 'Vendor account name' (Melanie R Al-Hassan), 'Bank country' (Nigeria), 'Bank Currency' (USD), 'Swift code' (ABNONGLAXXX, highlighted with an orange border), 'IBAN' (Enter number), 'Intermediate bank name' (Enter bank name), 'Intermediate account number' (Enter account no), and 'Intermediate swift code' (Enter swift code). A 'Log Out' link is at the bottom of the sidebar.

Figure 23: Vendor bank details with a valid SWIFT code

- Click **Save and continue**.

The screenshot shows the 'Profile / Vendor Registration' page for user 'John Adeyemi'. The left sidebar is identical to Figure 23, with 'Profile' selected. The main content area shows the progress bar with step 04, 'Bank Details', highlighted. The 'Bank Details' section is expanded, showing a title 'Bank Details' and a subtitle 'Provide us with important details for financial transactions.' Below this are input fields for 'Bank name' (Access Bank), 'Bank account number' (0001112234), 'Vendor account name' (John Adeyemi), 'Bank country' (Nigeria), and 'Swift code' (ACCESSINGLA). At the bottom of the form are two buttons: 'Back' and 'Save and continue' (highlighted with an orange border and an arrow pointing to it). A 'Log Out' link is at the bottom of the sidebar.

2.3.10. Responding to Review Comments

After submission, your registration will be reviewed by the Afreximbank team.

If any updates or corrections are needed, you will receive **comments on specific fields** within the platform. These comments will clearly indicate what needs to be modified.

- Look out for these **feedback comments** on your dashboard.
- To respond, enter your response in the text box provided and send. *Refer to Section 3.1 of this manual for a detailed guide on how to send and respond to enquiries/comments.*

2.3.11. Updating KYC Data and Resubmitting

If your KYC details are flagged:

- Log in to the Vendor Management System.
- Click the Profile Menu on the left sidebar.

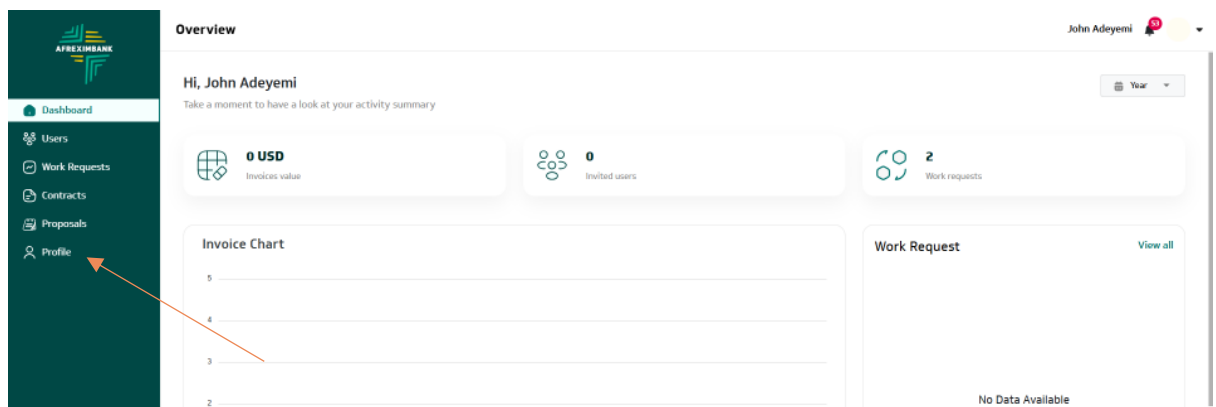

Figure 34: Vendor Profile page

- Navigate to the **Registration Data** or **Update KYC Document²** section of your profile.
- Make the necessary updates (e.g., new address, corrected company name, updated document). This is similar to your initial registration on the system.

User Manual - Vendor Management System

- After making changes, click the **Submit** button to send your profile back for another round of review. *Refer to Section 2.3 of this annual for a detailed guide on how to provide KYC and Registration data.*

2.3.12. Updating Your Invoice Confirmation Contacts

Afreximbank asks every vendor to name the people who are authorised to confirm invoices and banking information on the vendor's behalf. Afreximbank may contact these people to verify an invoice or a change to your bank details before a payment is made, so make sure their details are correct and up to date.

If you are registering for the first time, add your contacts on Contact Details as described in section 2.3.3. If you are an existing (onboarded) vendor, update them as follows:

- Log in to the Vendor Management System.
- Click **Profile** on the left sidebar, then click **Registration data**.

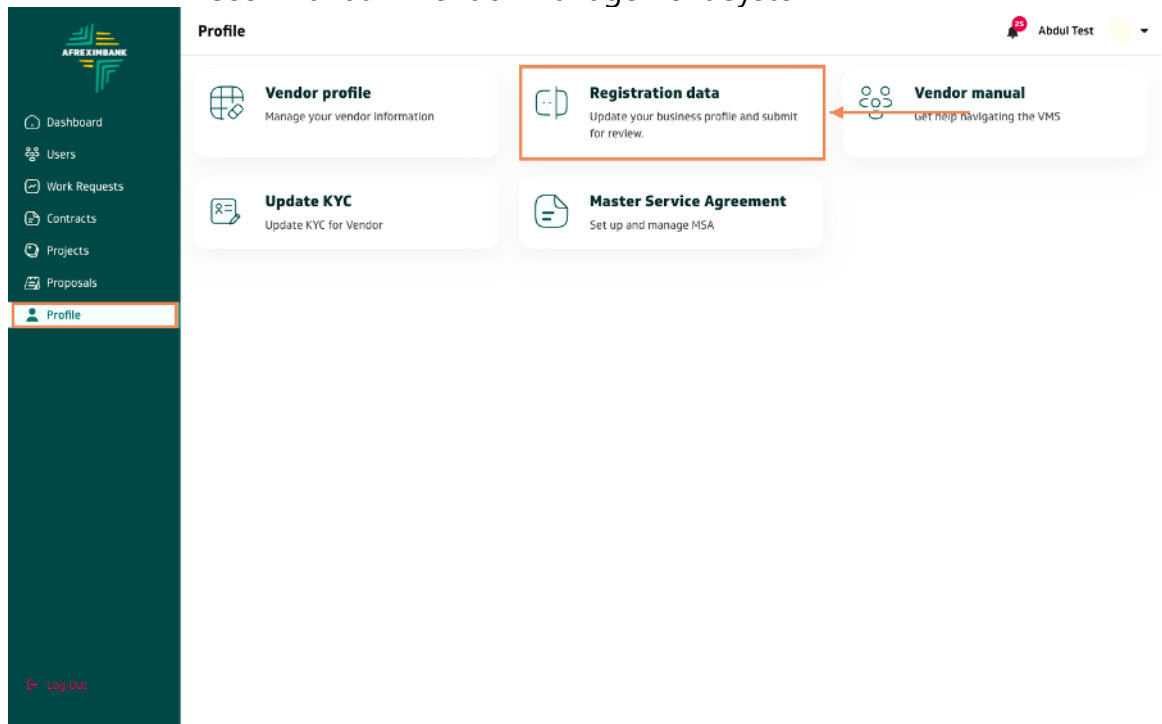

Figure 35: Vendor profile page with the Registration data option

- The registration form opens at step 01, **Biographical Information**. Check your details and click **Save and continue** to go to step 02, **Contact Details**.
- Scroll down to **Invoice Confirmation Contacts** and add, update or remove contacts as described in section 2.3.3. Contacts (A) and (B) are mandatory, and you can add up to five.

User Manual - Vendor Management System

Figure 36: Invoice confirmation contacts (A) and (B) completed

- Click **Save and continue**. A confirmation message reads **Vendor contact details updated successfully**.
- Check Business Information, Bank Details, Work Requests and Documents. Complete any mandatory field that is still empty and click **Save and continue** on each.
- Sign the declaration as described in section 2.3.8, then submit your profile from **Review and submit** as described in section 2.3.9.

Note: Saving a step stores your changes, but they only reach Afreximbank once you submit your profile. Submitting sends your profile back to the Afreximbank team for review.

2.3.13. Re-Certification Requirements

Please note that you will be required to **recertify** when:

User Manual - Vendor Management System

- Any mandatory document (e.g., business license, tax clearance, insurance) expires.
- KYC data previously validated becomes outdated or invalid.
- Your recertification date, set by the Bank when your registration was marked compliant, is approaching. You will receive a reminder email seven days before this date.

Note: You will be **prompted to recertify** via the system document expiry tracker¹⁰, and an alert will appear on your dashboard guiding you to the necessary section.

Once you update your KYC and submit your recertification, the reminders stop for that cycle and your registration goes through the standard review and approval process.

2.4. Accessing the System

To access the Vendor Management System:

2.4.1. Visit the Login Page

- Visit <https://vendors.afreximbank.net/vendor/login> to get started.

User Manual - Vendor Management System

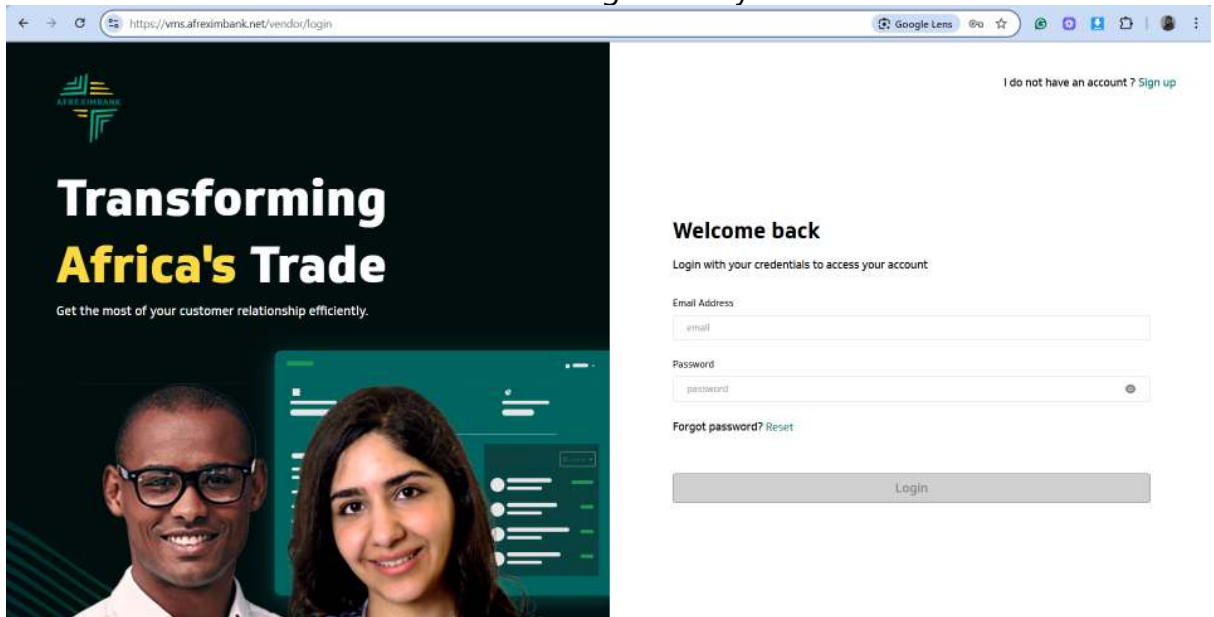

Figure 37: VMS Vendor Login page

2.4.2. Enter Your Credentials

- **Email Address:** Use the email associated with your vendor account.
- **Password:** Use the password you created during registration.

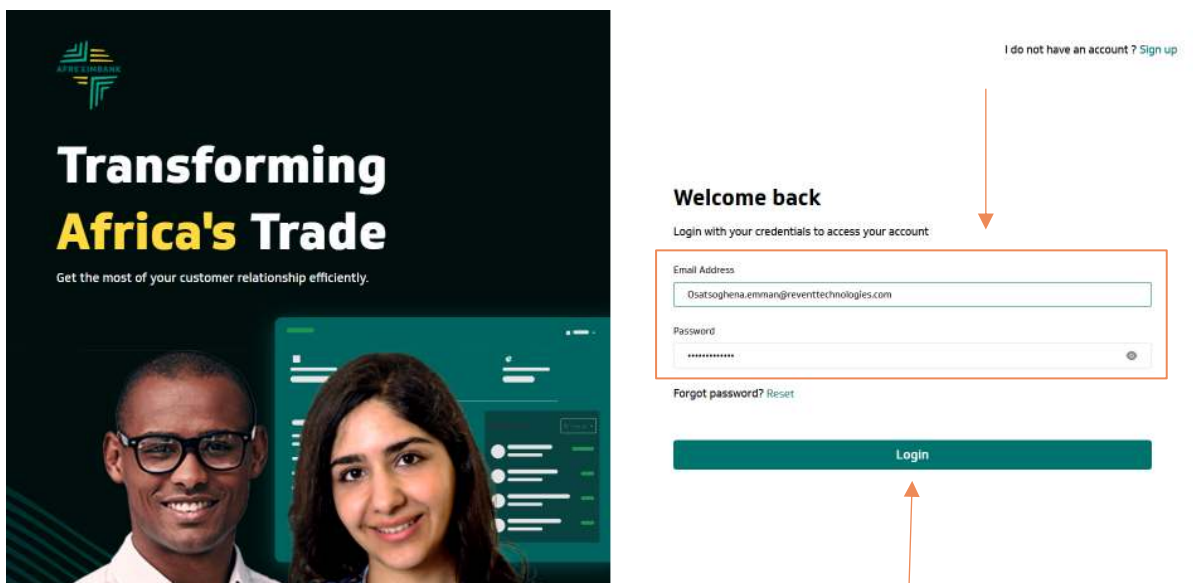

Figure 38: VMS Vendor Login page with details

2.4.3. Forgot Password?

- Click the “**Reset**” button next to the “**Forgot Password**” label if you cannot remember your password. Follow the prompts to reset your password via email.

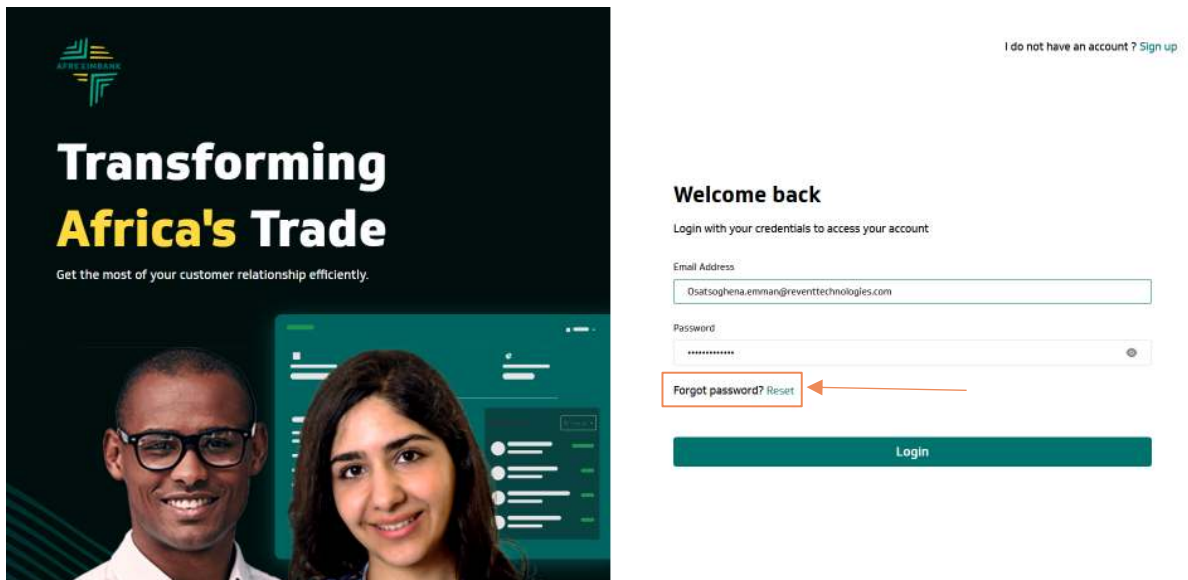

Figure 39: VMS Vendor login page with Reset button

- Alternatively, refer to **Section 2.5 of this manual** for detailed steps on how to recover your password.

2.4.4. New Vendor?

- If you are a first-time user, click on the “**Sign-Up**” button in the top-right corner of your screen to begin the onboarding process.

User Manual - Vendor Management System

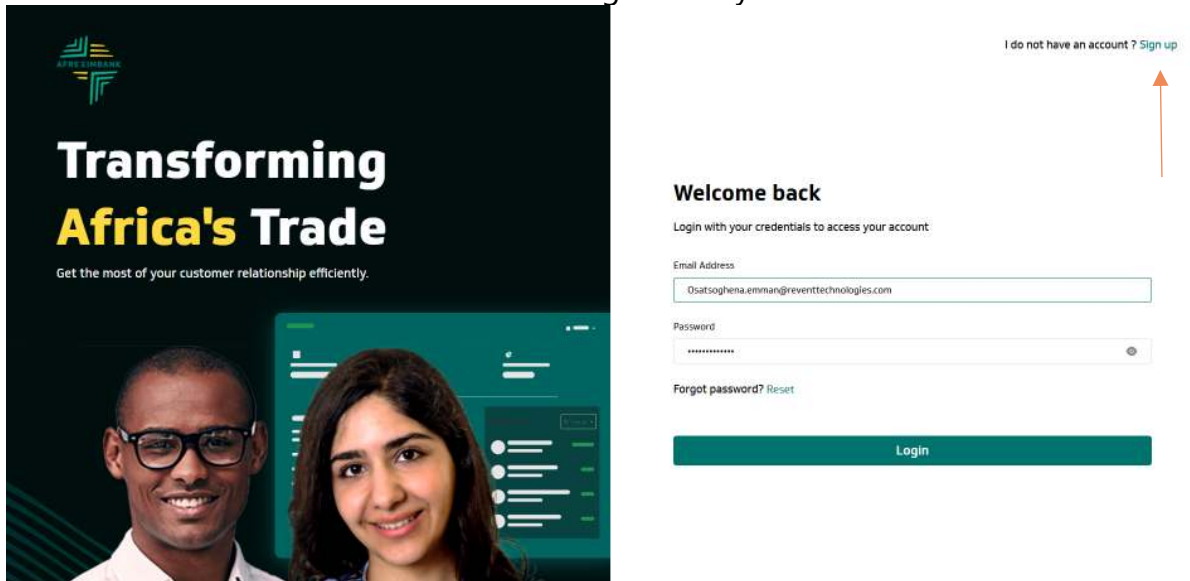

Figure 40: VMS Vendor login page with Sign up button

2.5. Recovering your Forgotten Password

If you have forgotten your password or need to create a new one, the Vendor Management System allows you to reset it easily. Follow the steps below to reset your password:

2.5.1. Go to the Login Page

- Navigate to the Vendor Management System login screen. You'll see the fields for entering your email and password.

User Manual - Vendor Management System

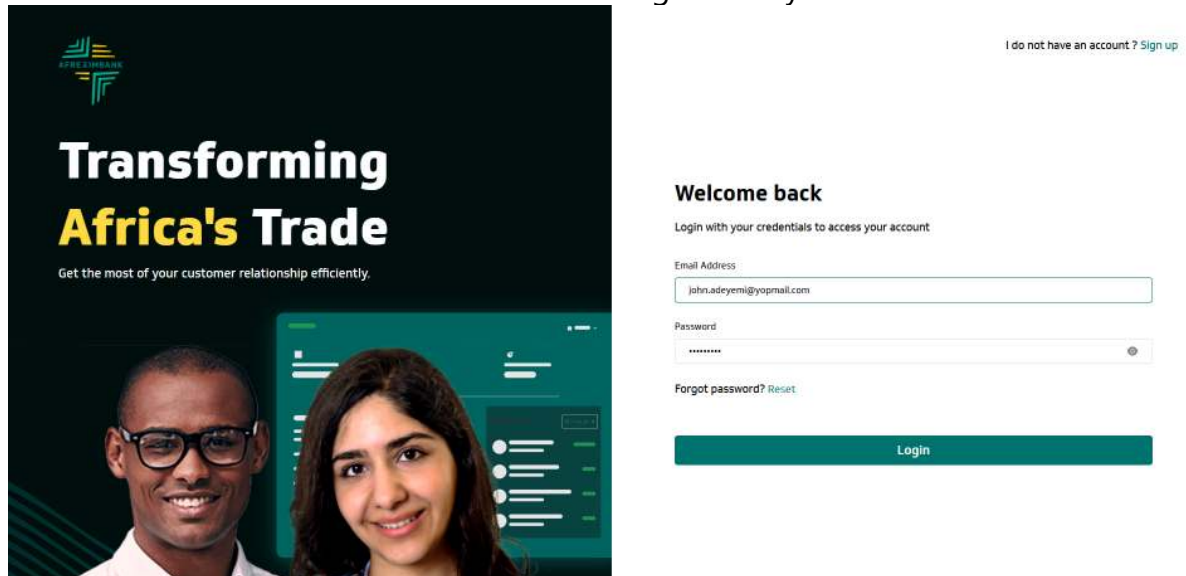

Figure 41: VMS Vendor Login page

2.5.2. Click “Reset”

- Below the login fields, click the “Reset” link.

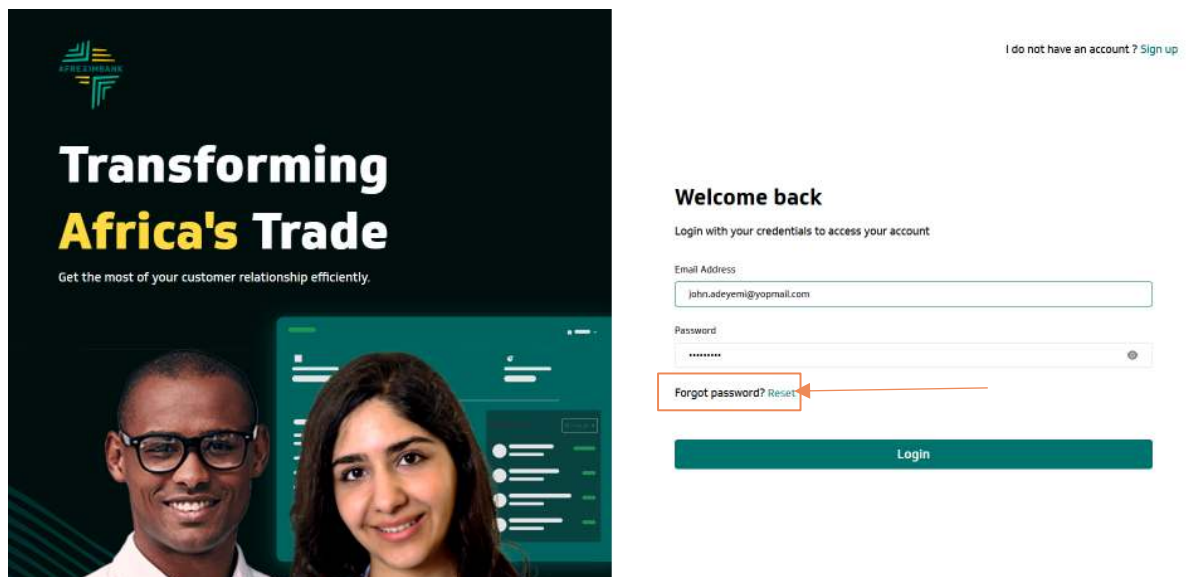

Figure 42: VMS Vendor Login page

2.5.3. Enter Your Email Address

- On the password recovery screen, enter the email address associated with your vendor account.

User Manual - Vendor Management System

- Click “**Reset password**” to proceed.

2.5.6. Login With Your New Password

- After resetting, you may return to the login page and enter your email and new password to access your dashboard⁶.

Note: If you don't receive the reset email within a few minutes, check your spam/junk folder. If it still doesn't appear, contact support.

3. Managing Proposals

Once your vendor profile has been approved and activated, Afreximbank may invite you to participate in procurement opportunities by submitting proposals. These proposal requests are always initiated by the Bank and shared directly with vendors selected for that specific opportunity.

You will receive a system-generated email notification when you are invited to respond to a proposal. From there, you can log into the Vendor Management System (VMS) to view the request details, submit your response, and upload supporting documents.

This section will guide you through the process of managing proposals from start to finish.

3.1. Submitting Proposals

As a Vendor, the bidding process starts with receiving an Invitation to submit a proposal from the Bank. To submit a proposal,

- Open the Invitation email and click the **Submit Proposal** button.

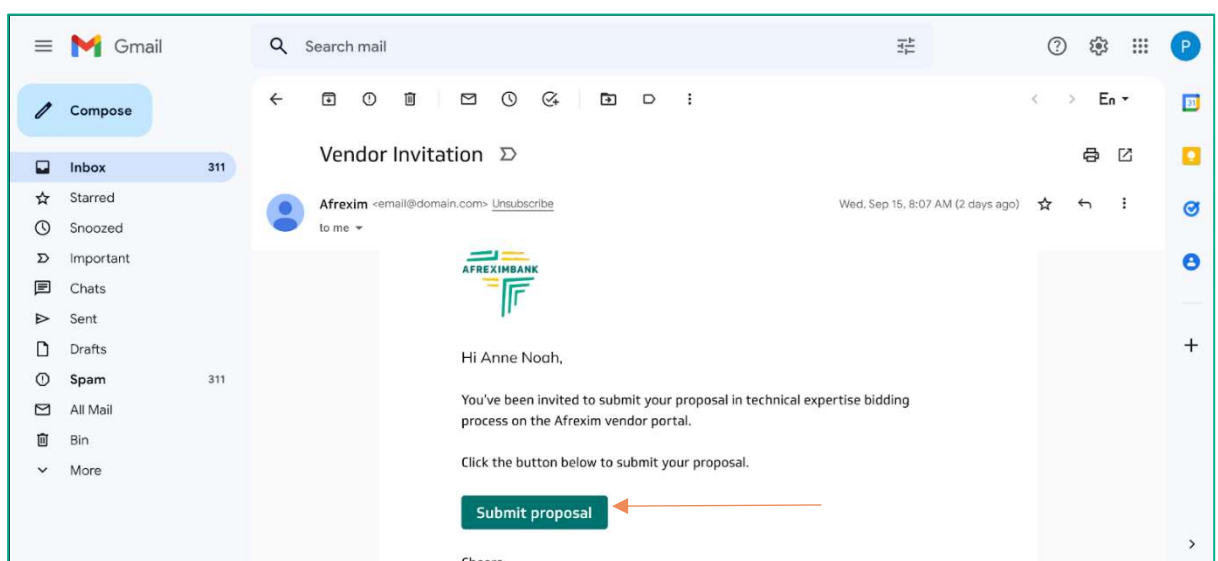

Figure 48: vendor email invitation to submit a proposal.

User Manual - Vendor Management System

- **Login** to the Vendor Management System using your registered **email and password**. Click **Login** to proceed

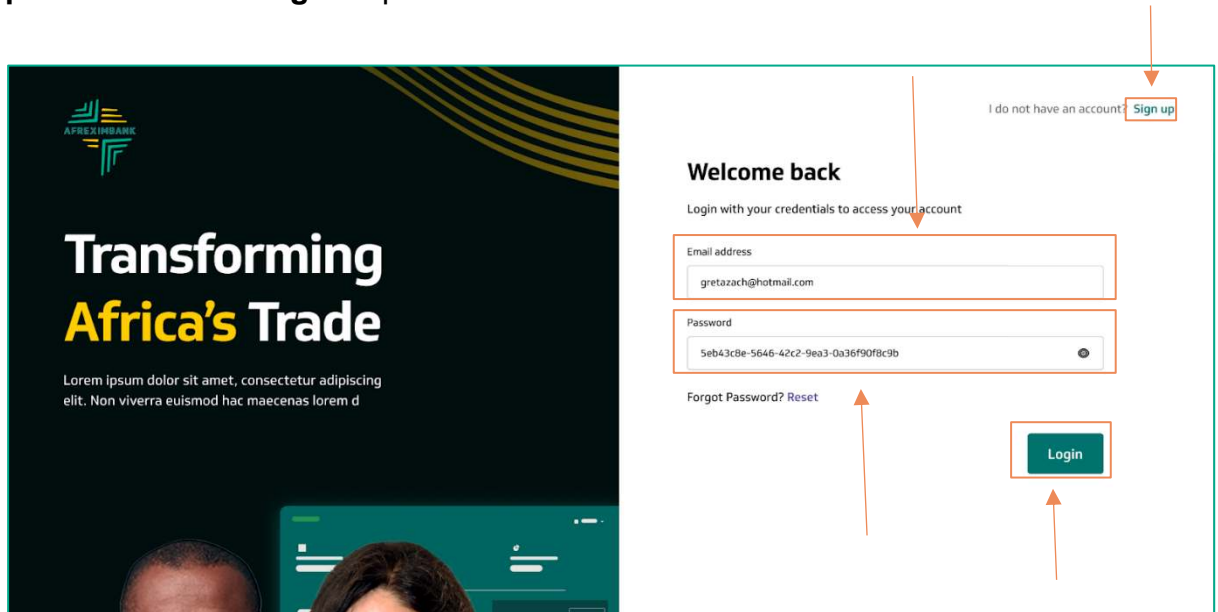

Figure 49: Vendor Management System - login page

- Alternatively, log in to the platform and go to **Proposals**.
- Locate the relevant procurement request. Click the three dots on the right-hand side of the request.
- Click **Submit Proposal** to proceed.

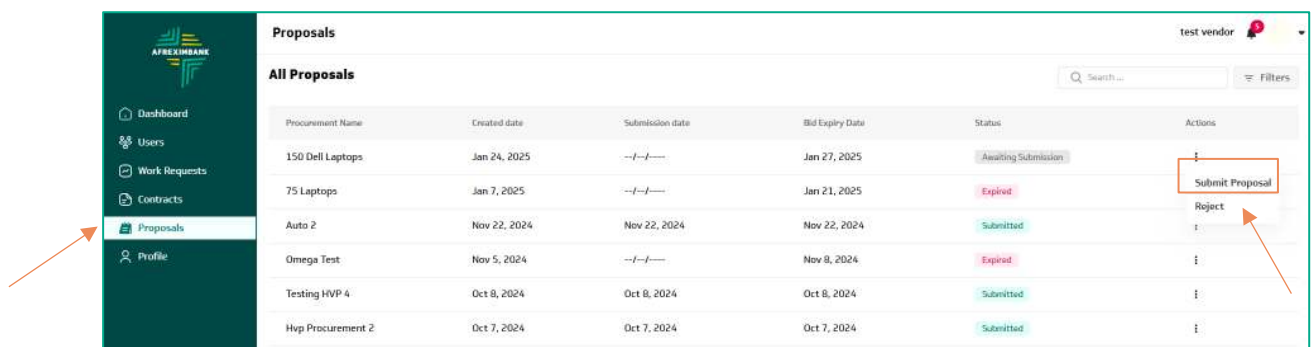

Figure 50: vendor portal - list of proposals

- To view the RFP document for this proposal request, navigate to the far-right of the app and click the view icon next to the document.

User Manual - Vendor Management System

- Upload all relevant documents.

Figure 51: vendor portal - submit proposal

- To send an inquiry to the evaluation team, navigate to the **Enquiries** Tab.
Click the send icon next to the attach files button to send your inquiry. Note that inquiries can be sent before and after submitting a proposal.

Procurement Name	Created date	Submission date	Bid Expiry Date	Status	Actions

Proposal rejected successfully

Figure 56: vendor portal - proposal rejection confirmation

- Once a proposal is rejected, an Afreximbank user is notified about the rejection and the reason provided.

4. Managing Contracts

After a successful proposal and evaluation process, Afreximbank may award you a contract. This contract outlines the agreed scope of work, deliverables, timelines, and payment terms.

Once awarded, the contract will be made available to you within the Vendor Management System (VMS). You will receive a system notification once the contract is published and available for review.

This section guides you through how to:

- View awarded contracts
- Download contract documents
- Monitor contract status
- Stay informed about key milestones and updates

Understanding how to manage your contract is essential for maintaining compliance and ensuring a smooth invoicing process.

4.1. Send Contract

Once a contract has been requested, you will need to upload it. To upload a contract,

- Login to the Vendor Management System (Vendor Portal).
- *Alternatively, vendors can click the link from their email notification.*
- Navigate to the **Contracts** Menu from the sidebar.

User Manual - Vendor Management System

Contract title	Work Request	Vendor	Email address	Request Date	Status
Contract for 150 Laptops Contract	Stage 1	Cmm Test		Feb 5, 2025	Requested
testing2	Testing contract	Cmm Test		Jan 24, 2025	AmendmentRequired
test	Testing contract	Cmm Test		Jan 24, 2025	Requested
fyfu	testingreqow	Cmm Test		Jan 6, 2025	Requested
testing email	testing email	Cmm Test		Oct 30, 2024	Approved
k	testing last time	Cmm Test		Oct 29, 2024	Approved

Figure 57: vendor portal - list of contracts

- Click the relevant contract from the list available. At this stage, the contract's status will be set to **Requested**.
- Click the box that indicates “**Click here to upload from your local storage**”.

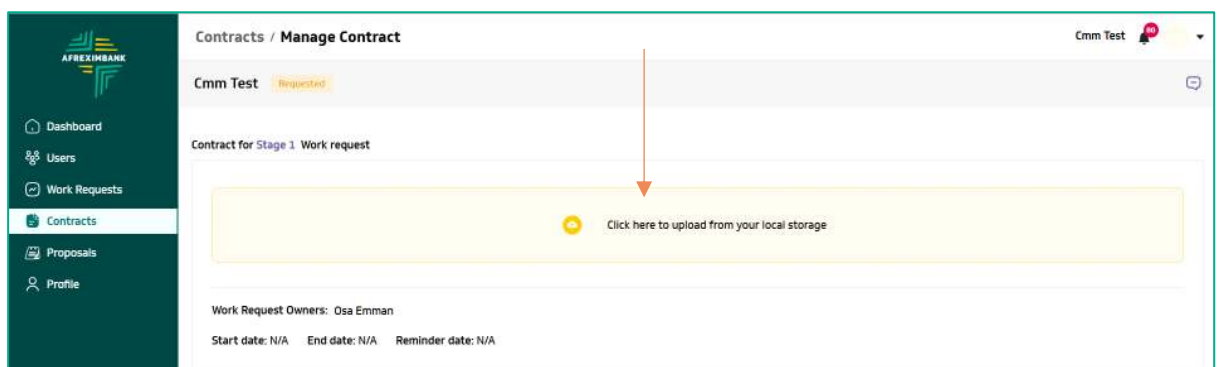

Figure 58: vendor portal - upload contract

- When prompted, click the upload button again or drag the contract file into the upload area.

User Manual - Vendor Management System

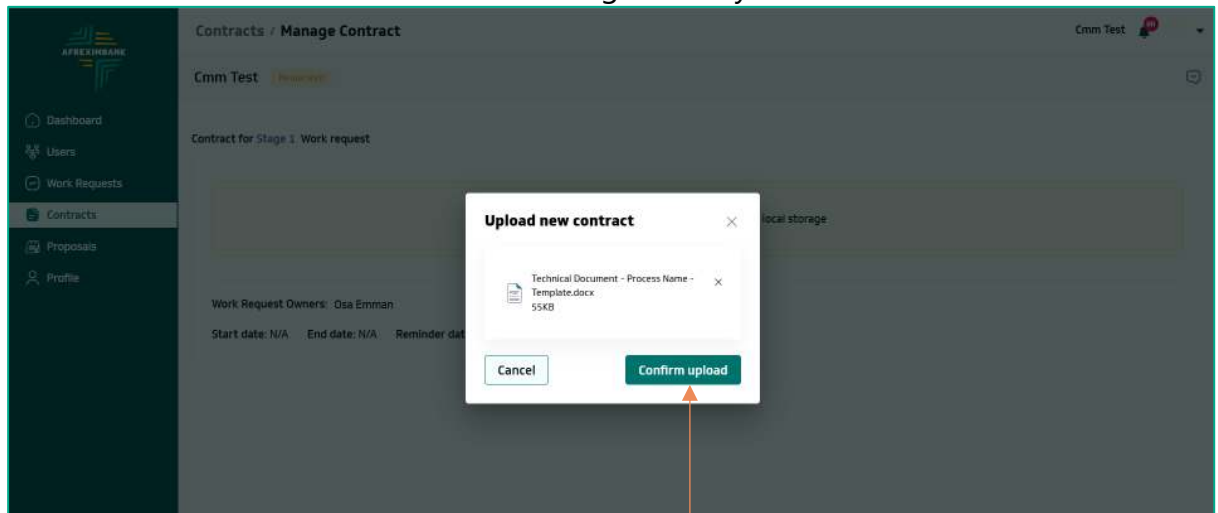

Figure 59: vendor portal - confirm contract upload

- Click the **Confirm Upload** button to submit the contract for review and approval.

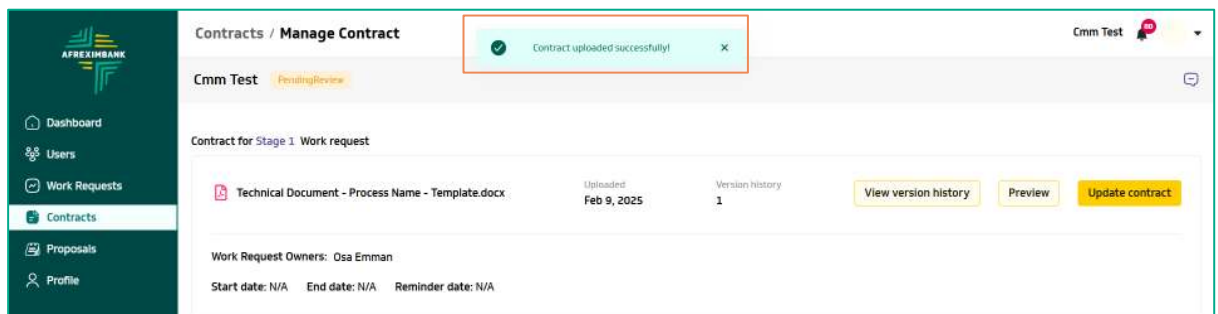

Figure 60: vendor portal - successful contract upload confirmation

- This should update the contract's status to **"Pending Review"**.

5. Adding Invoices to Work Requests

Once the contracting process is finalised, Afreximbank may begin assigning **Work Requests** to you. A work request is a formal assignment issued through the Vendor Management System (VMS), detailing a specific task or deliverable under your awarded contract.

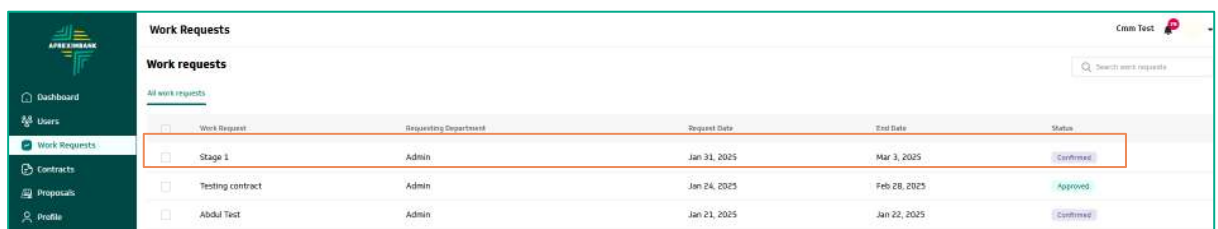

Only confirmed work requests—meaning those that have passed internal clearance and are formally assigned—are eligible for invoicing.

This section walks you through how to:

- View your assigned work requests
- Initiate and submit invoices for completed work
- Track invoice status

Timely and accurate invoicing helps ensure that your payment process runs smoothly and is aligned with contractual expectations.

Once Work Requests have been created, you will need to add invoices. To do this,

Work Request	Requesting Department	Request Date	End Date	Status
Stage 1	Admin	Jan 31, 2025	Mar 3, 2025	Confirmed
Testing contract	Admin	Jan 24, 2025	Feb 28, 2025	Approved
Abdul Test	Admin	Jan 21, 2025	Jan 22, 2025	Confirmed

Figure 61: vendor portal - list of work requests

- Navigate to the **Work Requests** section and select the relevant work request.
- Click the **Add Invoice** button in the top-right corner.

User Manual - Vendor Management System

The screenshot displays the 'Add Invoice' form in the Vendor Management System. The form is titled 'Add Invoice' and contains the following fields:

- Invoice name:
- Invoice number:
- Invoice date:
- Invoice amount: Currency:

Below the form fields is a yellow box with a sun icon and the text: "Click here to upload from your local storage or drop a file here." An orange arrow points to this box. At the bottom of the form are "Cancel" and "Create" buttons.

Figure 62: vendor portal - adding invoice to work requests

- In the invoice form, enter:
 - **Invoice Name**
 - **Invoice Number**
 - **Invoice Date**
- Specify the **Invoice Amount** and select the appropriate currency.
- Click the upload area to select a file from your local storage or drag and drop the invoice document into the designated space.
- Click **Create** to submit the invoice.
- If needed, click **Cancel** to exit without saving.

User Manual - Vendor Management System

The screenshot shows the 'Manage Work Request' page in the Vendor Management System. The left sidebar contains navigation links: Dashboard, Users, Work Requests (selected), Contracts, Proposals, and Profile. The main content area is titled 'Work Requests / Manage Work Request' and shows a 'Draft' invoice status. The 'Invoices' section on the right lists invoice details: Invoice name (Invoice 1), Invoice number (00123), Invoice date (Feb 9, 2025), and Invoice amount (30,000.00 USD). The 'Send Invoice' button is highlighted with a red box, and an orange arrow points to it.

Field	Value
Work Request	Stage 1
Requesting Department	Admin
Request Date	Jan 31, 2025
Start Date	Feb 3, 2025
End Date	Mar 3, 2025
Reminder Date	Feb 20, 2025
Estimated Cost	200,000.00 USD
Work request owners	

Figure 63: vendor portal - add invoice overview

- Review the Invoice details and click on the Send Invoice button to complete the process and send the invoice for approval.

The screenshot shows the 'Manage Work Request' page after the 'Send Invoice' button was clicked. A confirmation message is displayed at the top: 'Invoice sent successfully! Invoice status is now Pending Approval'. The 'Invoices' section on the right now shows the invoice status as 'Pending' (yellow circle icon). The 'Send Invoice' button is now disabled (greyed out).

Field	Value
Work Request	Stage 1
Requesting Department	Admin
Request Date	Jan 31, 2025
Start Date	Feb 3, 2025
End Date	Mar 3, 2025

Figure 64: vendor portal - add invoice confirmation

6. Managing Master Service Agreements (MSA)

The **Master Service Agreement (MSA)** section allows you to submit and manage your service agreements with the Bank. An approved MSA establishes the general terms and conditions governing your relationship with the Bank and may be required before participating in certain procurement activities. From this page, you can view existing MSAs, track their review status, or request a new MSA by selecting **Request MSA** and uploading the required documents for approval.

6.1. Requesting a Master Service Agreement

To request a Master Service Agreement (MSA),

- Log in to the Vendor Management System using your Vendor credentials.

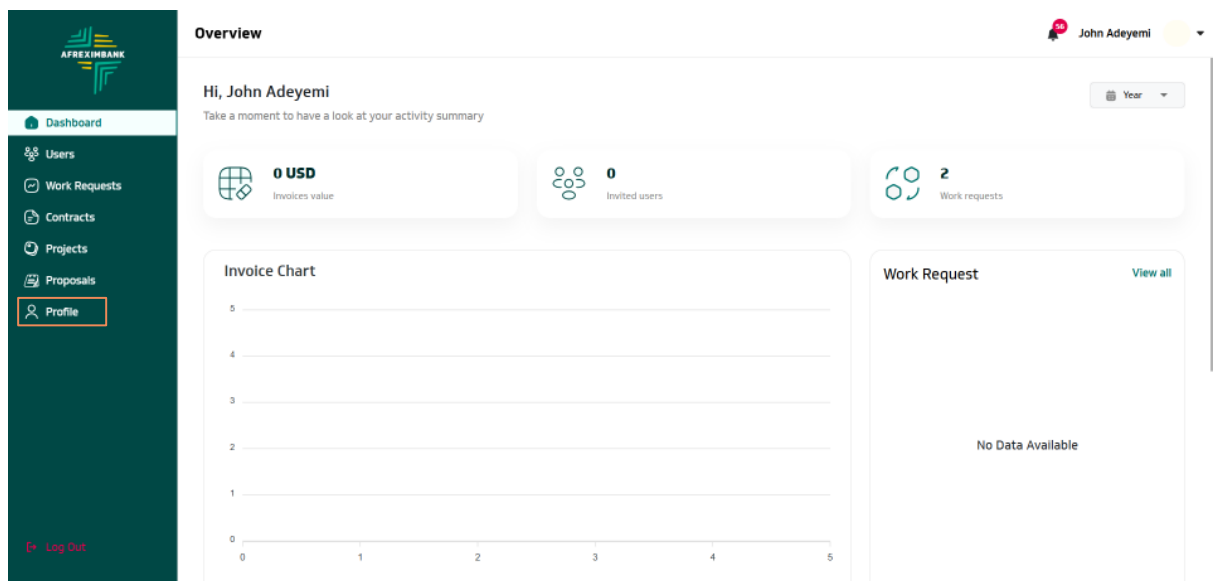

Figure 65: Vendor Dashboard

- Navigate to **Profile > Master Service Agreement** from the left sidebar.

User Manual - Vendor Management System

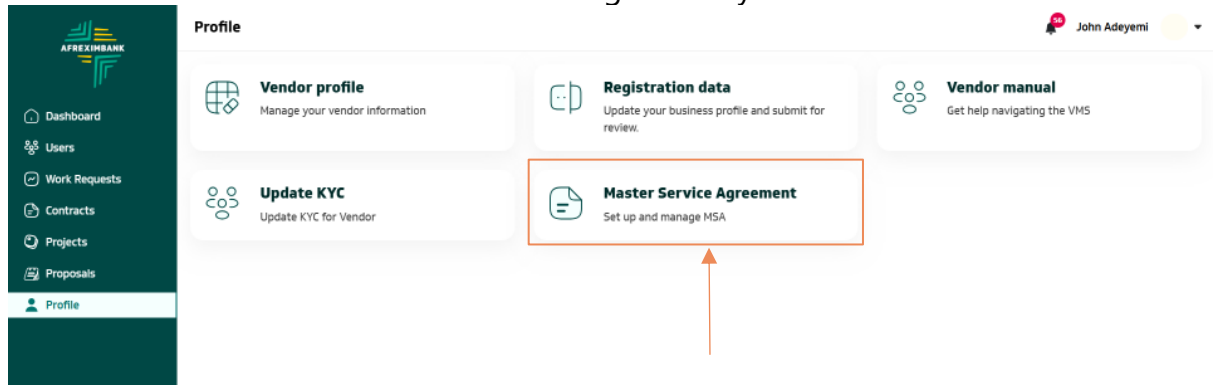

Figure 66: Vendor Profile Options

- Click **Request MSA** from the top-right section of your screen.

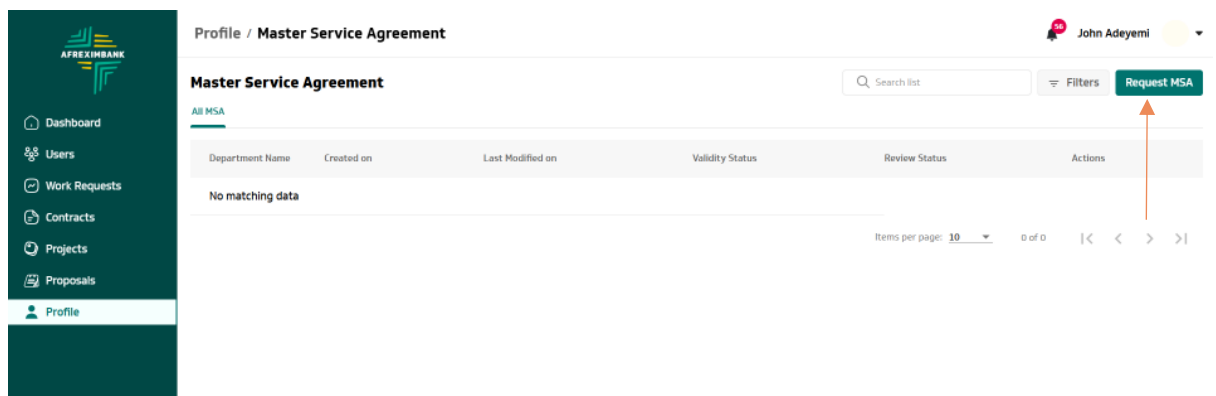

Figure 67: Vendor Master Service Agreement list

- Select the Department you wish to assign to the Master Service Agreement.

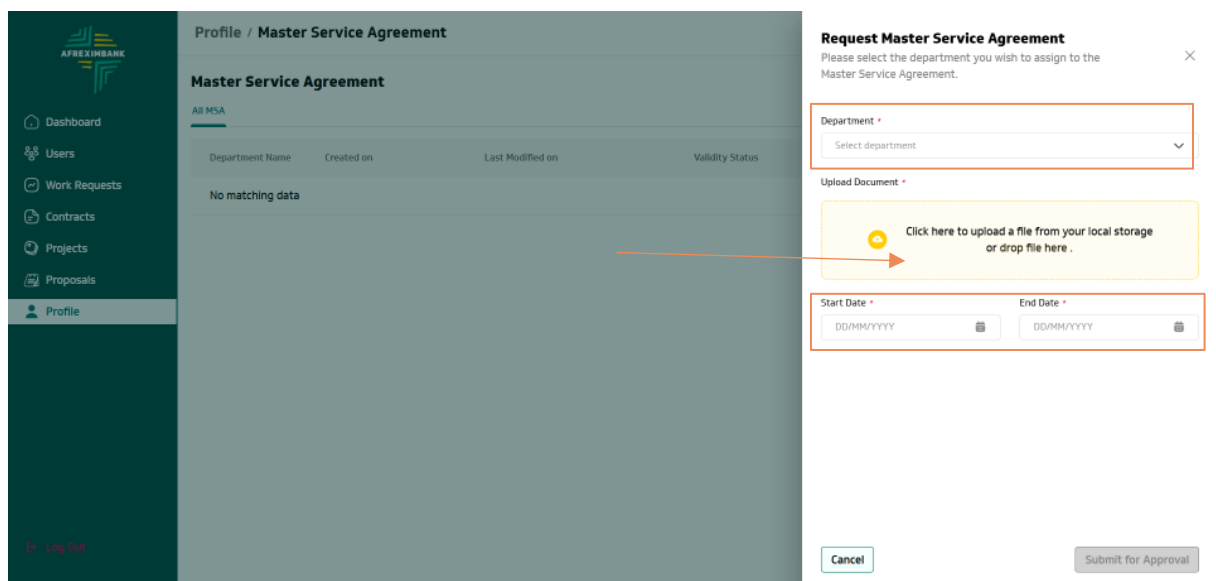

Figure 68: Vendor Master Service Agreement Request

User Manual - Vendor Management System

- Upload the Agreement document.
- Enter **Start and End Dates** for the Master Service Agreement.

The screenshot shows the 'Request Master Service Agreement' form. The 'Department' dropdown is set to 'Information Technology'. The 'Upload Document' section shows a file named 'Afreximbank_AML...'. The 'Start Date' is '12/11/2025' and the 'End Date' is '01/06/2026'. A 'Submit for Approval' button is highlighted with an orange arrow.

Figure 69: Vendor Master Service Agreement Request Submission

- Click **Submit for Approval** to complete the request.
- At this stage, the request's status will be **Pending Review**, awaiting approval from Afreximbank.

The screenshot shows the 'Request Master Service Agreement' confirmation page. A success message 'Request Contract created successfully!' is displayed. The table below shows the request details:

Department Name	Created on	Last Modified on	Validity Status	Review Status	Actions
Information Technology	Nov 12, 2025	-	Pending	PendingReview	

The 'Request MSA' button is visible in the top right corner.

Figure 70: Vendor Master Service Agreement Request Submission Confirmation

6.2. Responding to Master Service Agreement Requests from the Bank

To respond to a Master Service Agreement (MSA) request,

- Log in to the Vendor Management System using your Vendor credentials.

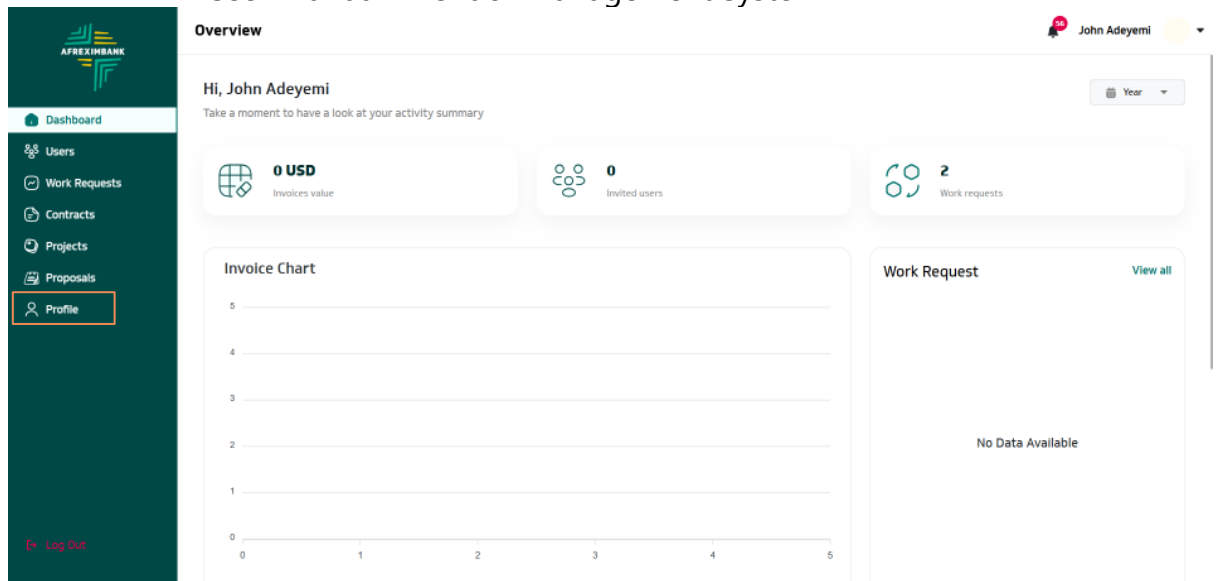

Figure 71: Vendor Dashboard

- Navigate to **Profile > Master Service Agreement** from the left sidebar.

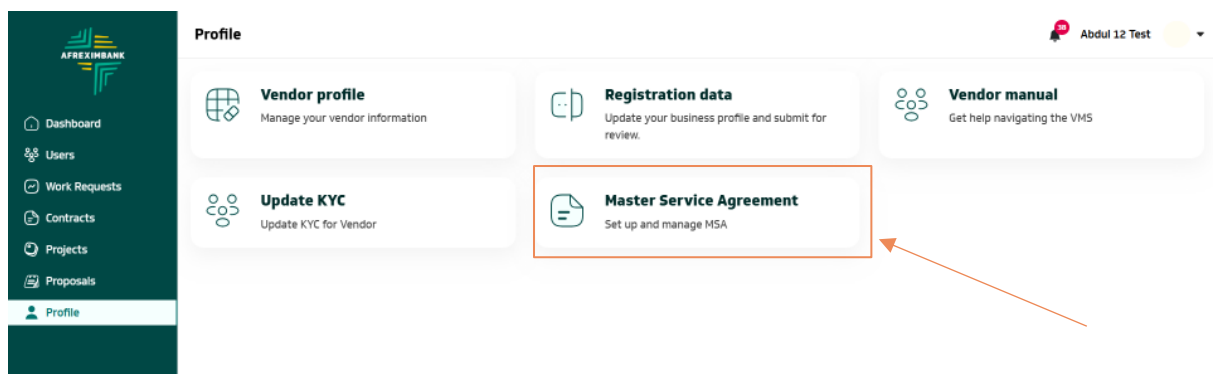

Figure 72: Vendor Profile with Master Service Agreement option

- Locate the MSA request from the available list.

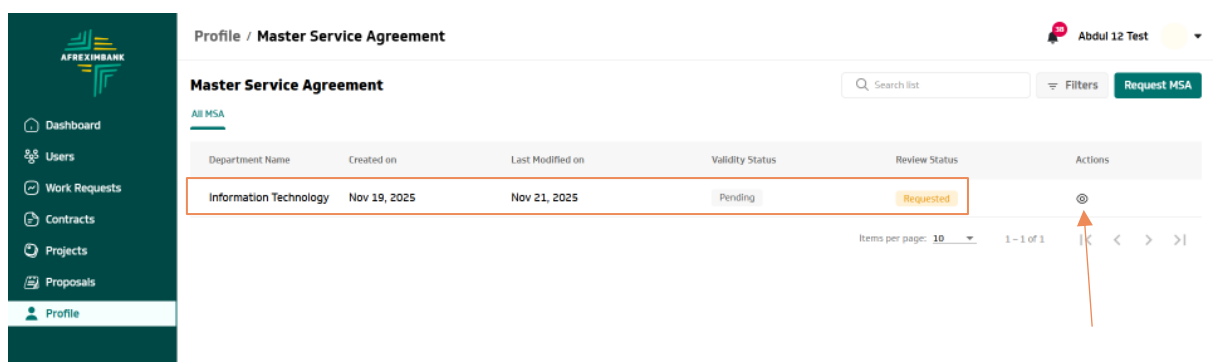

Figure 73: Vendor Master Service Agreement list

- Click the **View** (eye) icon on the right-hand side of the request.

User Manual - Vendor Management System

- Download or preview the attached documents using the relevant buttons.
- Click **Re-upload MSA** to add your agreement document.

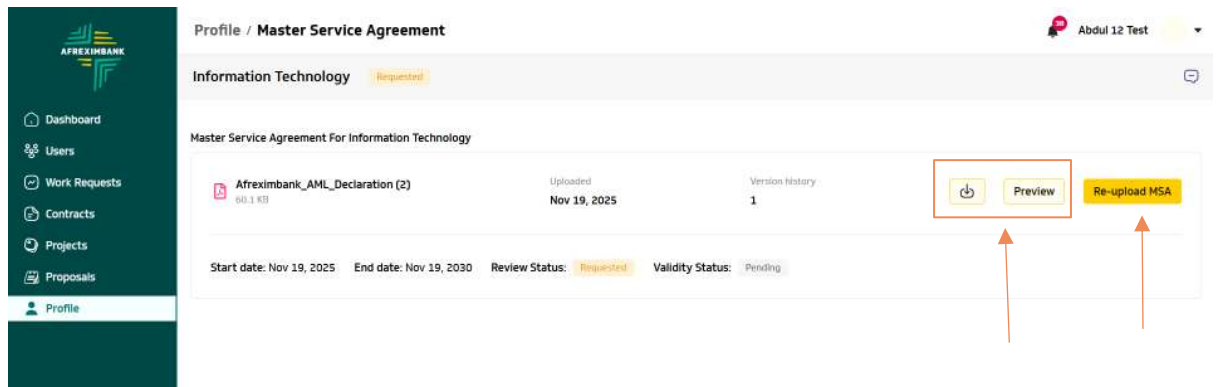

Figure 74: Vendor Master Service Agreement Overview

- Adjust Start and End Dates if needed.
- Upload the updated document.
- Click **Submit for Approval** to complete your response, pending review from Afreximbank.

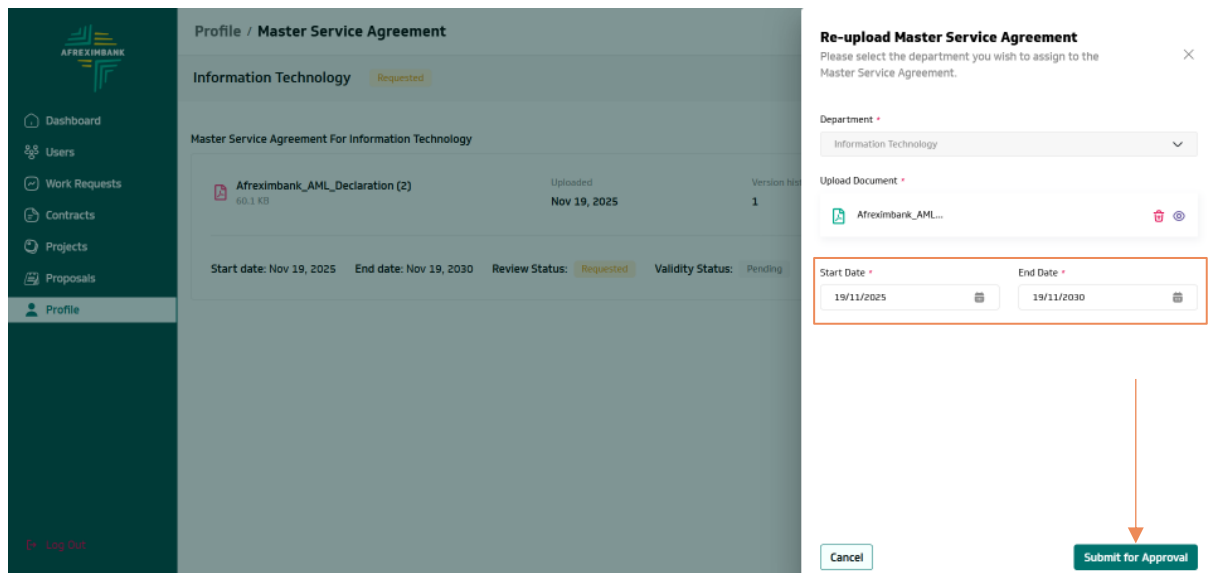

Figure 75: Vendor Master Service Agreement Upload

- At this stage, the Review Status of this MSA should be **PendingReview**, and its validity status should be **Pending**.

Figure 94: SOW and Timesheet Upload Confirmation

8. Statement of Work

The Statement of Work (SOW) module allows you to formalise engagements with Afreximbank on a per-department basis. Once the Bank enables this module for your organisation, you can initiate SOWs, upload timesheets and invoices against approved SOWs, request payment, and confirm payment once proof of payment is uploaded by the Bank.

This section walks you through the SOW lifecycle from configuring your resources, through initiating a SOW, submission of timesheets and invoices, requesting payment and confirming receipt of payment.

8.1. Configuring your SOW Resources

Before you can initiate your first Statement of Work, you must first configure the list of resources (people) your organisation can assign to SOWs. Resources you add here become selectable in the Resource Name dropdown when you initiate a SOW.

To configure your SOW Resources,

- Login to the Vendor Management System (Vendor Portal).
- Click Profile on the left-hand side of your screen, then select Statement of Work Resource.
- Alternatively, when you attempt to Initiate SOW for the first time you will see the prompt "Resources not configured! Please set it up before Initiating a SOW." – click Configure SOW Resources on the prompt to be taken to the same page.

User Manual - Vendor Management System

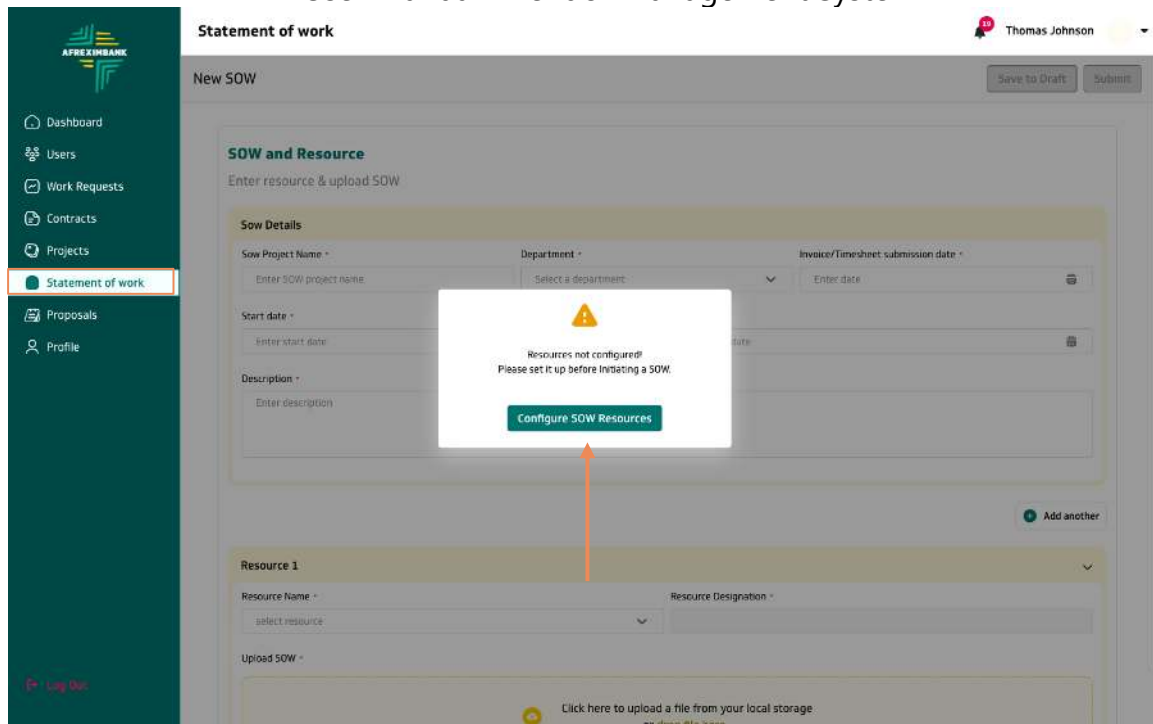

Figure 95: vendor portal – prompt to configure resources before initiating a SOW

- On the Statement of work Resource page, click Add Resources at the top-right of your screen.

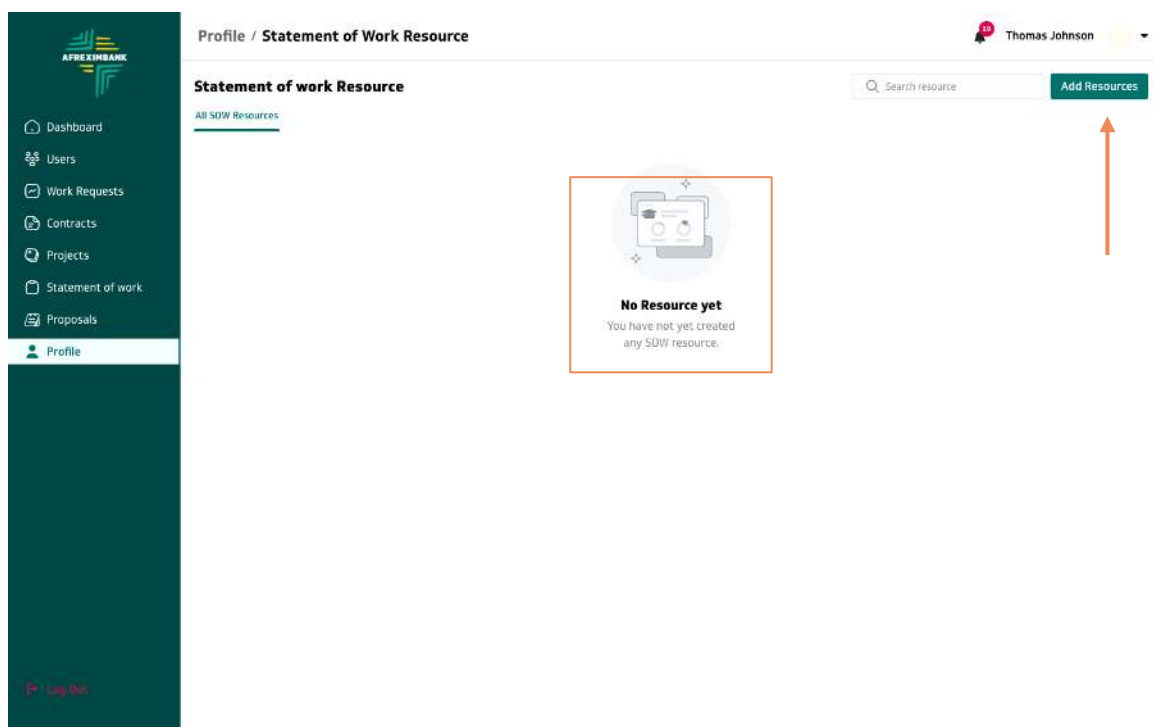

Figure 96: vendor portal – empty Statement of work Resource page

User Manual - Vendor Management System

- On the Add SOW Resource side panel, enter the Resource Designation and Resource Name for the first resource. Both fields are required.
- Click + Add Resource to add another row for a second resource. Repeat as needed. Click Remove next to a row to delete a row before submission.

The screenshot shows the 'Add SOW Resource' side panel with the following data:

Resource Designation	Resource Name	Action
Senior Software Engineer	Ibrahim Musa	Remove
Technical Lead	Chidi Okunkwo	Remove
Business Analyst	Fatima Al-Hassan	Remove
QA Engineer	Nguzi Adebayo	Remove

Buttons: + Add Resource, Remove, Cancel, Submit

Figure 97: vendor portal – Add SOW Resource side panel with multiple rows filled

- Click Submit to save your resources.
- A confirmation message reads "Vendor resource configurations created successfully" and the saved resources appear under the All SOW Resources list.

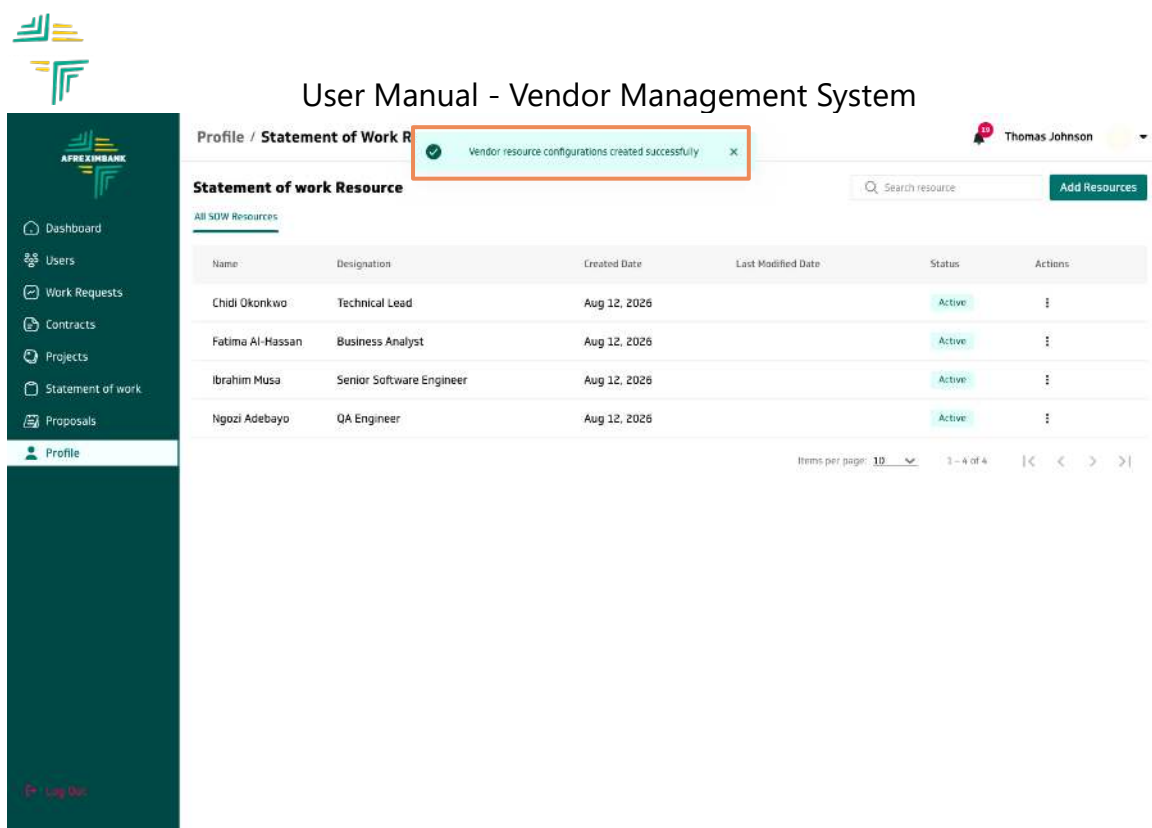

Figure 98: vendor portal – saved resources listed on the Statement of work Resource page

You can return to this page at any time to add more resources as your team grows.

8.2. When the SOW Module Appears

The Statement of work module is only visible in your sidebar navigation once the Bank has activated it for your organisation. If you do not see Statement of work in the left-hand menu, please contact your Afreximbank point of contact to confirm activation.

If SOW has been previously enabled and later disabled by the Bank, your existing SOWs remain viewable in read-only mode, but you will not be able to initiate new ones.

User Manual - Vendor Management System

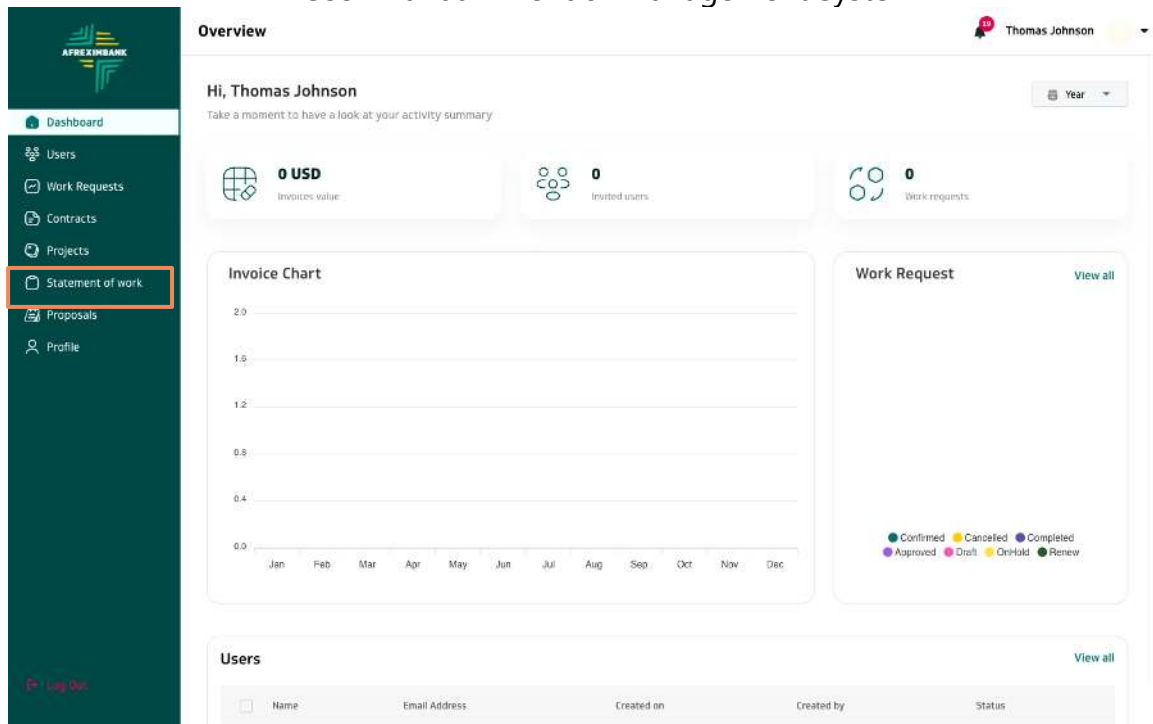

Figure 99: vendor portal – Statement of work module in the sidebar

8.3. Initiating a New SOW

To create a new Statement of Work,

- Login to the Vendor Management System (Vendor Portal).
- Click Statement of work on the left-hand side of your screen.
- Click Initiate SOW at the top-right corner of your screen. If you have no SOWs yet, you will see a "No SOW yet" empty state with the same call to action.

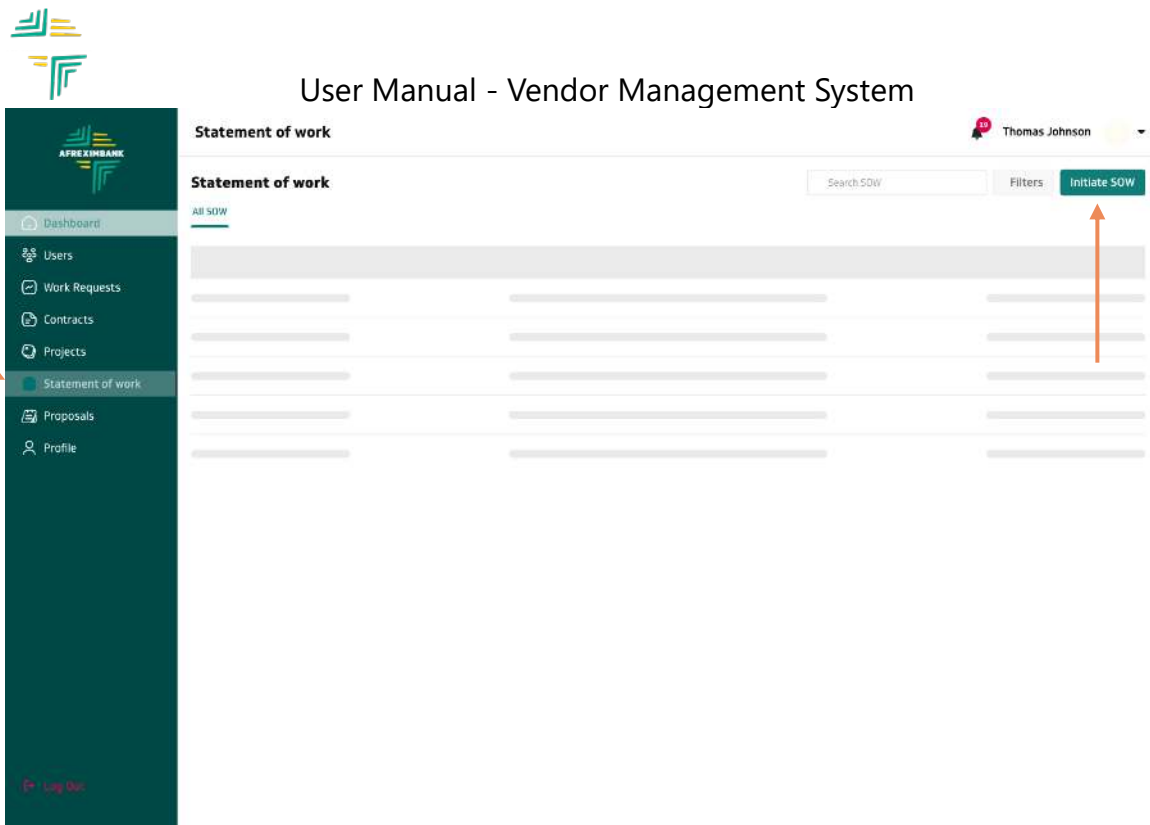

Figure 100: vendor portal – Statement of work empty state with Initiate SOW button

- On the New SOW page, complete the SOW Details section by entering a Sow Project Name, selecting the Department, and choosing the Invoice/Timesheet submission date, Start date and End date.
- Provide a Description of the services to be provided.

Add another

Figure 101: vendor portal – New SOW page with SOW Details filled

8.3.1. Adding Resources to the SOW

Each SOW must contain at least one resource. You can add multiple resources to a single SOW to cover a team engagement in one submission.

- Under Resource 1, click the Resource Name dropdown to see the list of resources you configured earlier under **Profile > Statement of Work Resource**. Select the resource you want to assign.
- The Resource Designation is filled automatically for you.

User Manual - Vendor Management System

Figure 102: vendor portal – Resource Name dropdown showing configured resources

- Click the Upload SOW area or drag your SOW document into it. PDF documents are supported.
- Click Add another to add an additional Resource block for a second resource. Repeat as needed.
- Click the trash icon next to a Resource block to remove it before submission.

User Manual - Vendor Management System

Figure 103: vendor portal – New SOW page with two resource blocks completed

8.3.2. Saving as Draft

You can save the SOW as a draft at any time provided every mandatory field is filled, including the uploaded SOW document per resource.

- Click Save to Draft at the top-right corner of your screen. The SOW is stored under the All SOW list with a Draft status and is not sent to the reviewers.

8.3.3. Submitting the SOW

- Once you are satisfied with the details and every resource has its Upload SOW file attached, submit the SOW for review.
- Click Submit at the top-right corner of your screen.
- On the Submit SOW confirmation prompt, click **Yes, Submit** to proceed.
- Alternatively, click No, Cancel to return to the form without submitting.

User Manual - Vendor Management System

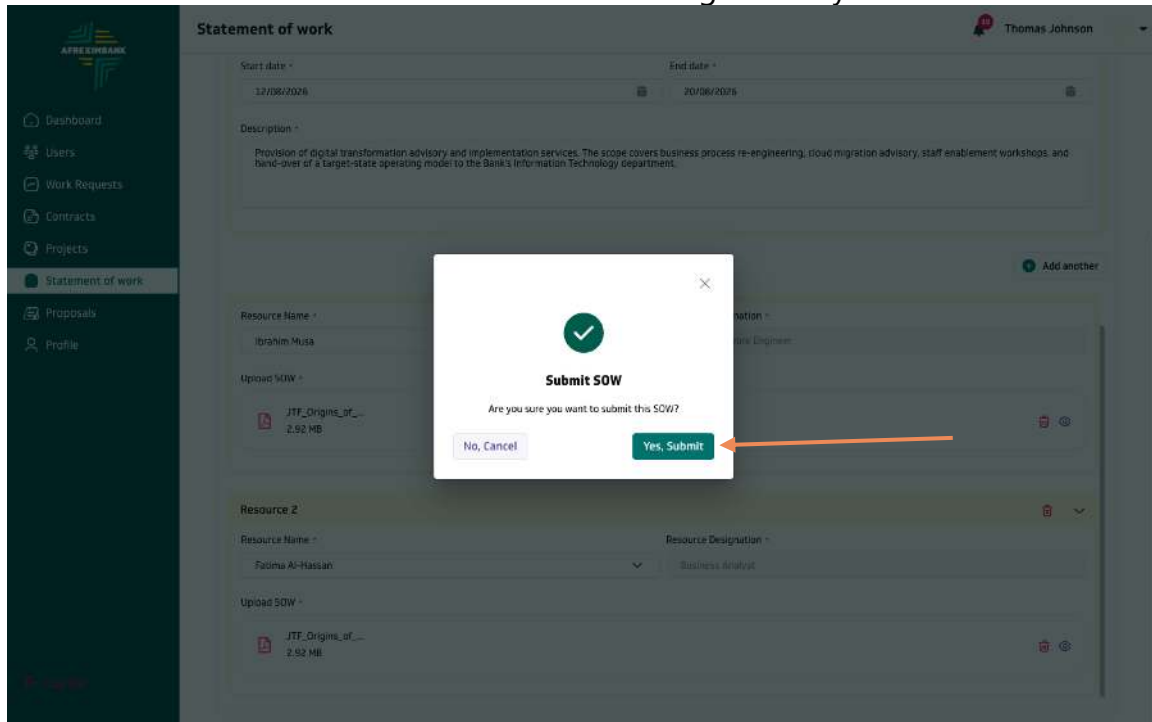

Figure 104: vendor portal – Submit SOW confirmation prompt

A confirmation message reads "SOW submitted for review successfully" and the SOW appears in the All SOW list with a status of Awaiting Approval.

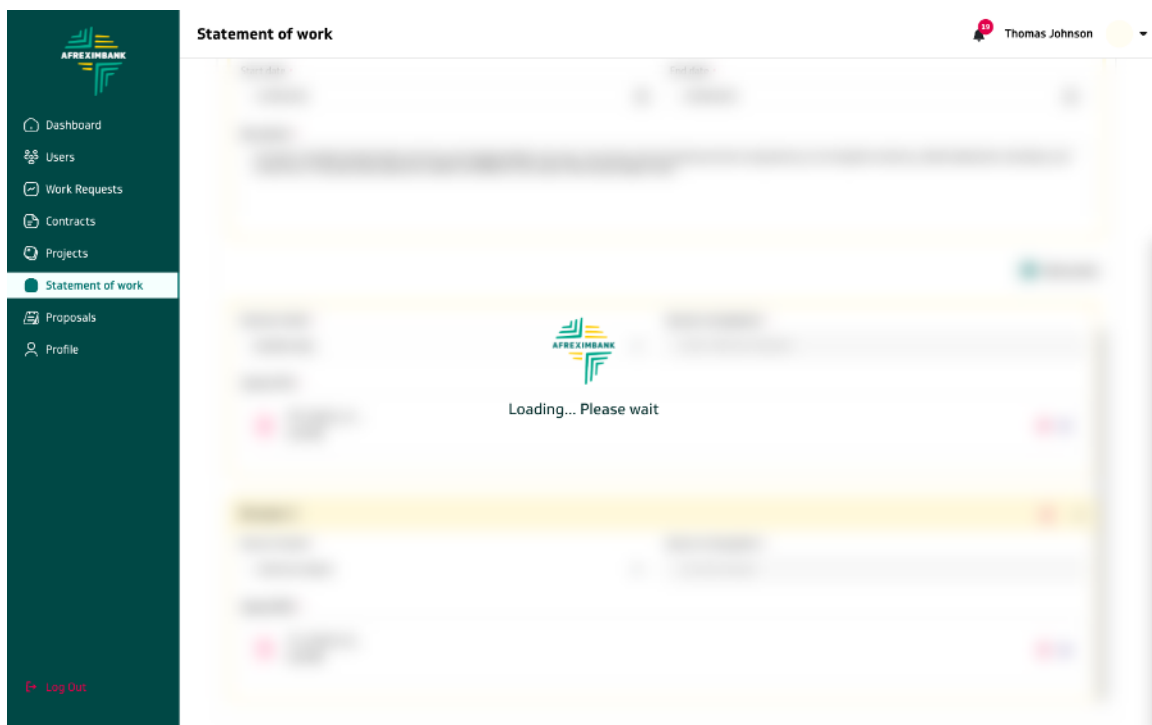

Figure 105: vendor portal – SOW list after successful submission

8.4. Tracking SOW Status and Responding to Reviewer Comments

Once you have submitted a SOW, you can monitor its status from the SOW list.

Statuses reflect where the SOW is in the two-level review process.

If a First Level Reviewer marks your SOW as Not Cleared, you will receive a notification and the reviewer's comment will be visible on the SOW. You can edit the SOW and resubmit it – the same SOW re-enters the review workflow.

Note: If your SOW is rejected by a Second Level Reviewer, the SOW returns to the First Level Reviewer first. If that First Reviewer subsequently marks the SOW as Not Cleared, only the First Reviewer's comment is shown to you.

8.4.1. Searching and Filtering your SOWs

- Use the Search SOW box at the top of the list to filter by SOW project name or reference.
- Click Filters at the top of the list to narrow the list by status.

8.4.2. Responding to a SOW Not Cleared comment

If a First Level Reviewer marks your SOW as Not Cleared, the SOW is returned to you with the reviewer's comment. The SOW list shows the SOW at Not Cleared and its Actions column displays the eye icon so you can open the SOW view.

To review the comment and resubmit,

- Login to the Vendor Portal.
- Click Statement of work on the left-hand side of your screen.

Comment

First Level Reviewer 17 August 2026 - 2:31PM

Please expand the scope description for Resource 1 (Brahim Musa). The current SOW document does not include enough detail on deliverables, acceptance criteria, or milestone dates. Resubmit with these sections filled in.

Figure 107: vendor portal – SOW view with the reviewer's comment panel on the right-hand side

User Manual - Vendor Management System

- On the right-hand side of the SOW view, read the reviewer's comment. The comment panel shows the reviewer identity (First Level Reviewer), the date and time, and the full comment text.

The screenshot displays the 'Statement of work' interface. On the left is a dark green sidebar with navigation links: Dashboard, Users, Work Requests, Contracts, Projects, Statement of work (highlighted), Proposals, and Profile. The main content area is titled 'Statement of work' and shows a specific SOW with ID 'SOW-457-20260814171726447' and a status of 'Not Cleared'. The SOW details include project name, department, start/end dates, and a description. Below this is a section for 'Resource 1' with fields for resource name and designation. On the right, a 'Comment' panel shows a message from the 'First Level Reviewer' dated '17 August 2026 - 2:31PM'. The comment text is: 'Please expand the scope description for Resource 1 (Ibrahim Musa). The current SOW document does not include enough detail on deliverables, acceptance criteria, or milestone dates. Resubmit with these sections filled in.' An orange arrow points from the comment text to the 'Resource 1' section.

Figure 108: vendor portal – Comment panel on the SOW view showing the First Level Reviewer's feedback

- Update the SOW inline on the same page to address the feedback. The SOW form is fully editable: description, dates, and resources can be updated directly. There is no separate edit page.

Figure 133: vendor portal – Request Payment send confirmation prompt

- When prompted, review the confirmation message and click Yes, Submit to proceed. Alternatively, click No, Cancel to close the prompt without sending.

The screenshot displays the 'SOW view' in the Vendor Management System. A toast message at the top right indicates 'Payment request sent successfully'. The 'SOW Details' section shows the project name, department, start and end dates, and resource information. The 'SOW' section displays the SOW document. The 'Timesheet' and 'Invoice' sections display the respective documents.

Statement of work

SOW-457-20260812211433976 Approved

SOW Details

A detailed description of the SOW information, outlining the purpose, objectives, and any specific requirements.

SOW Details

Description
Provision of digital transformation advisory and implementation services. The scope covers business process re-engineering, cloud migration advisory, staff enablement workshops, and hand-over of a target-state operating model to the Bank's Information Technology department.

Payment request sent successfully

Thomas Johnson

Figure 134: vendor portal – SOW view with the Payment request sent successfully toast

User Manual - Vendor Management System

A confirmation message reads "Payment request sent successfully". The system emails the finance team with the approved SOW, timesheet and invoice attached as zipped bundles per resource, and copies your two department reviewers.

The screenshot displays the 'Statement of work' interface. A green notification banner at the top states 'Payment request sent successfully'. The user 'Thomas Johnson' is logged in. The left sidebar contains navigation links: Dashboard, Users, Work Requests, Contracts, Projects, Statement of work, Proposals, and Profile. The main content area shows a table of SOWs. The table has columns: SOW Project Name, Reference, submissionDate, Timesheet & Invoice Status, Initiated Date, Status, and Actions. The first row shows 'Digital Transformati...' with Reference 'SOW-457-20260812211433976', submissionDate '13 August 2026', Timesheet & Invoice Status 'Payment Requested', Initiated Date 'Aug 12, 2026', and Status 'Approved'. The table is paginated with 'Items per page: 10' and '1 - 1 of 1'.

Figure 135: vendor portal – Statement of work list with the SOW's Timesheet & Invoice Status at Payment Requested

The Statement of work list now shows the SOW's Timesheet & Invoice Status as Payment Requested. The SOW's own Status column remains Approved.

8.7. Viewing Payment Proof and Confirming Payment

After Finance settles the payment, the Bank uploads a payment proof document against your SOW. The SOW's Timesheet & Invoice Status changes to **Awaiting Payment Confirmation** and you are notified by email. You then review the uploaded proof and confirm that you have received the payment in your account.

To view the payment proof and confirm payment,

- Login to the Vendor Management System (Vendor Portal).
- Click Statement of work on the left-hand side of your screen.

SOW Details

A detailed description of the SOW information, outlining the purpose, objectives, and any specific requirements.

SOW Details

Description
Provision of digital transformation advisory and implementation services. The scope covers business process re-engineering, cloud migration advisory, staff enablement workshops, and hand-over of a target-state operating model to the Bank's Information Technology department.

SOW Project Name	Department	Invoice/Timesheet Submission Date
Digital Transformation Initiative - Phas...	Information Technology	13 August 2026
Start Date	End Date	
12 August 2026	20 August 2026	

User Manual - Vendor Management System

Figure 137: vendor portal – SOW view with the Payment Proof section and the Payment Received button at the top-right

- Scroll to the Payment Proof section of the SOW view.
- Click the download or preview icon on the payment proof card to open the document and verify that the payment has been received in your account.

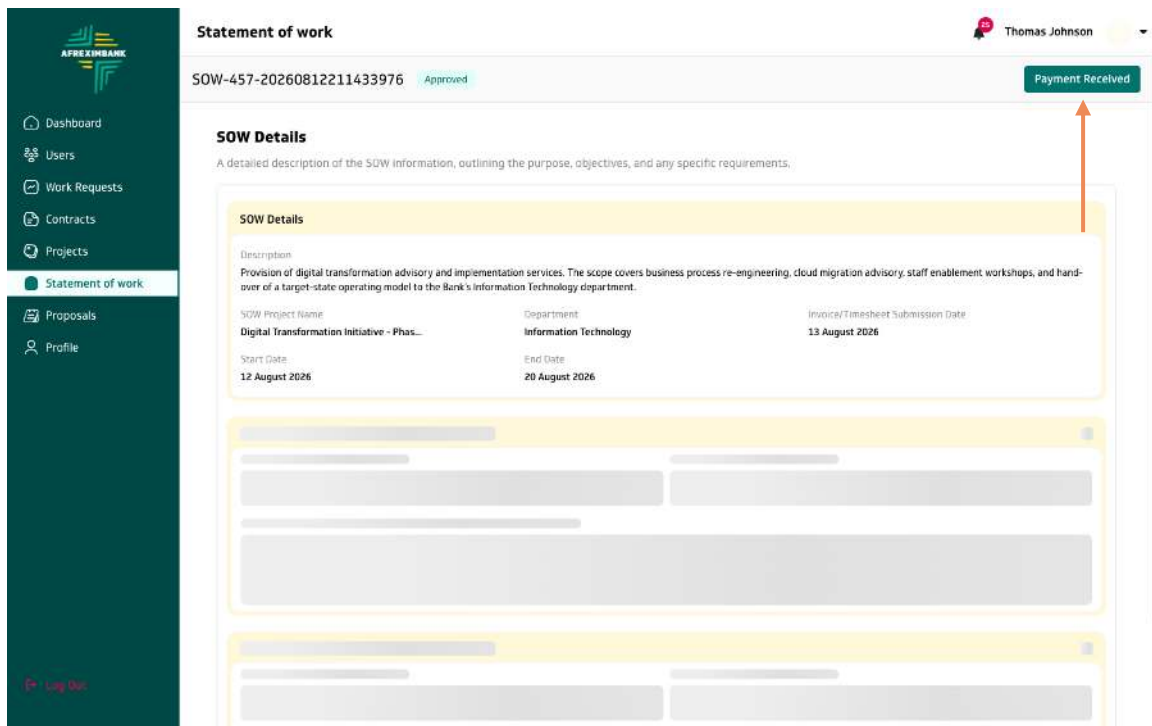

Figure 138: vendor portal – Payment Proof section on the SOW view

- Once you are satisfied that the payment was received, click Payment Received at the top-right of the SOW view.

User Manual - Vendor Management System

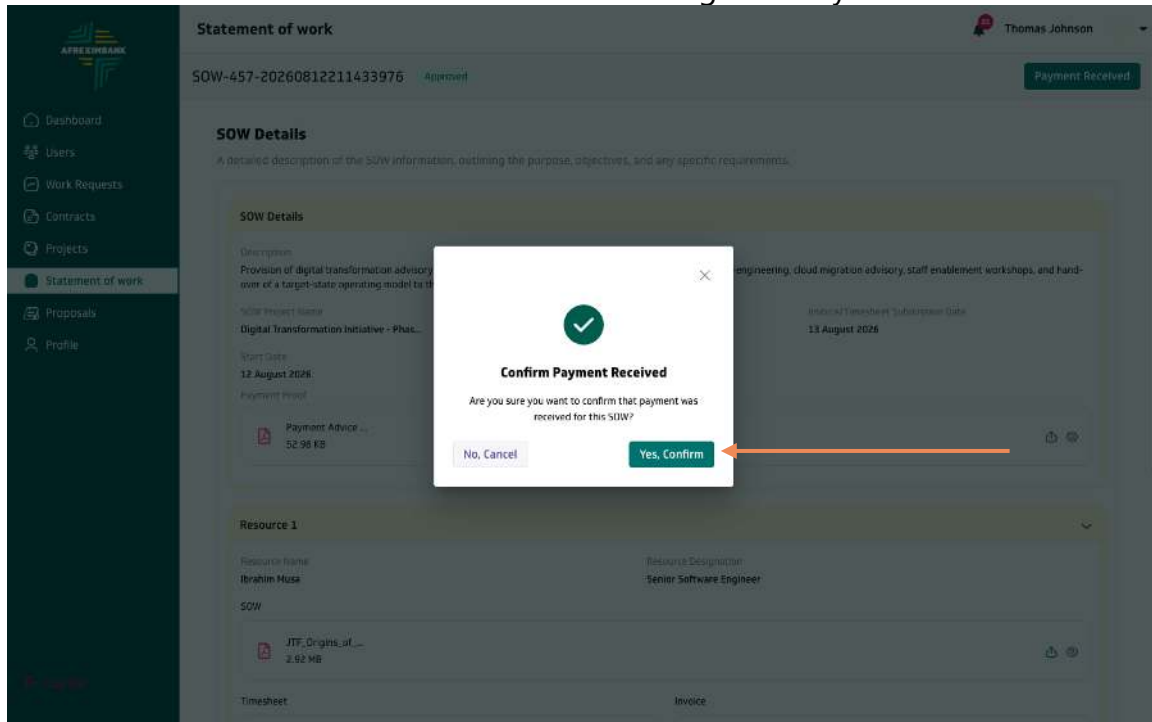

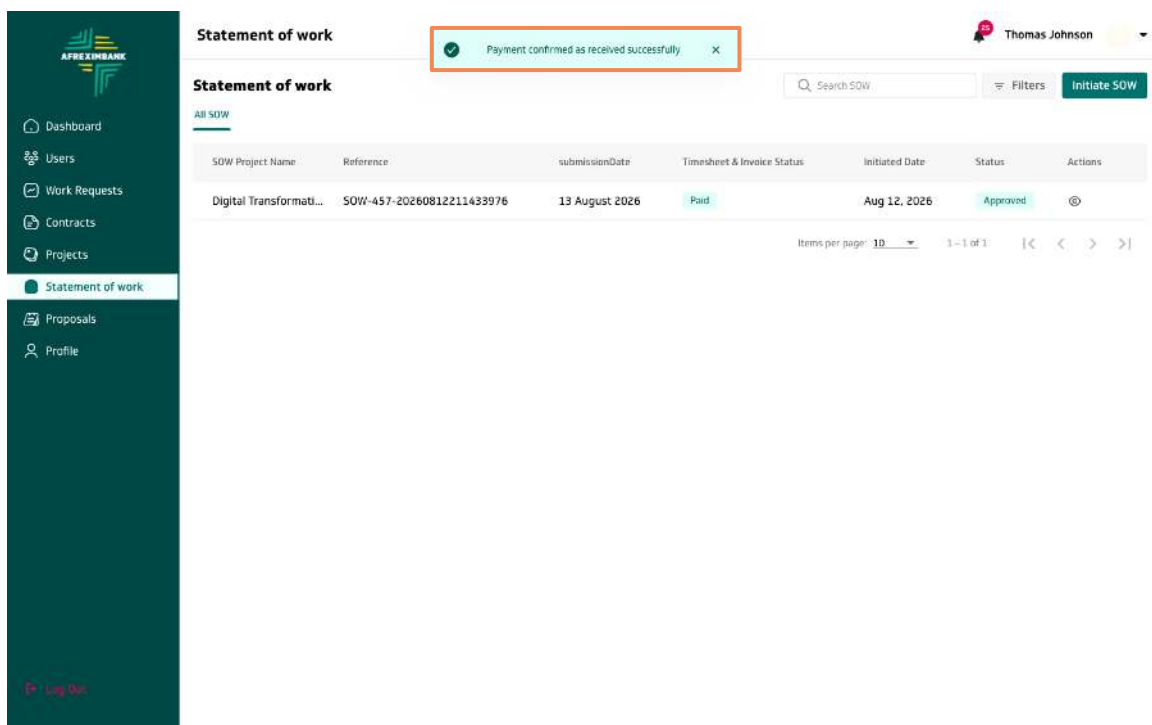

Figure 139: vendor portal – Confirm Payment Received prompt

- When prompted, review the confirmation message and click Yes, Confirm to complete the action. Alternatively, click No, Cancel to close the prompt without confirming.

User Manual - Vendor Management System

Figure 140: vendor portal – Statement of work list with the Payment confirmed as received successfully toast and the SOW's Timesheet & Invoice Status at Paid

- The system returns you to the Statement of work list. A confirmation message reads "Payment confirmed as received successfully" and the SOW's Timesheet & Invoice Status changes to Paid.
- Both reviewers and Bank operations are notified by email. Paid is a terminal state; no further actions are required on this SOW.

8.8. SOW Status Reference

Two status columns are used on the Statement of work list. The Status column tracks the SOW itself. The Timesheet & Invoice Status column tracks the timesheet and invoice submission for that SOW.

SOW Status column values you may see as a vendor:

- Draft – you have saved a SOW without submitting.
- Awaiting Approval – you have submitted the SOW; the Bank's First and Second Reviewers are working through it.
- Not Cleared – the First Reviewer has returned the SOW to you with a comment. Edit and resubmit from the SOW view.
- Approved – both reviewers have approved the SOW. You can now upload the timesheet and invoice from the submission date.

Timesheet & Invoice Status column values you may see as a vendor:

- Awaiting Submission – the SOW is Approved and the system is waiting for you to upload the timesheet and invoice on or after the submission date.
- Awaiting Approval – you have submitted the timesheet and invoice; the Bank's First and Second Reviewers are working through it.

User Manual - Vendor Management System

- Not Cleared – the First Reviewer has returned the timesheet and invoice to you with a comment. Open the SOW view, read the comment on the right, update the flagged resource and resubmit.
- Approved – both reviewers have approved the timesheet and invoice. You can now click Request Payment.
- Payment Requested – you have sent the Request Payment email to Finance.
- Awaiting Payment Confirmation – the Bank has uploaded proof of payment against the SOW and is waiting for you to confirm receipt.
- Paid – you have confirmed receipt of payment. This is a terminal state.

9. Glossary

Table 1

S/N	Term	Definition
1	VMS	Vendor Management System: The online platform for vendor registration, engagement, and procurement.
2	KYC Documents	Official documents (e.g., CAC certificate, tax clearance, TIN) that are used to verify your identity and legitimacy as a Vendor.
3	Clearance	An internal approval process that confirms your eligibility before procurement participation.
4	Compliance Review	A detailed review of uploaded documents to ensure legal, regulatory, and internal standards are met.
5	Proposal Submission	Your act of responding to a procurement opportunity by uploading the required bids and documents.
6	Dashboard	Your homepage in the VMS, where actions like bid submissions, editing profiles, and uploading contracts occur.
7	Onboarding	Final stage where approved vendors are added to the bank's official list of vendors.
8	Declaration Document	A required document that confirms the vendor's adherence to procurement ethics and organisational policies.

User Manual - Vendor Management System

S/N	Term	Definition
9	Service Offerings	The classification of goods or services that you are authorised to provide (e.g., IT equipment, consulting).
10	Document Expiry Tracker	A system feature that alerts you when uploaded documents are nearing expiration.
11	Internal Departmental Clearance	Verification process by relevant departments (e.g., Legal, Compliance, Finance) before full vendor activation.
12	Procurement Opportunity	A call for bids is published by the Bank to which you may respond with proposals.
13	Master Service Agreement (MSA)	A formal agreement that defines the general terms, responsibilities, and service expectations between a vendor and the Bank. An approved MSA may be required before the vendor can participate in procurement or project activities.
14	MSA Review Status	Indicates the stage of a submitted MSA, such as <i>Pending Review</i> , <i>Approved</i> , or <i>Returned for Update</i> .
15	Work Request	A formal assignment issued through the VMS, detailing a specific task or deliverable under an awarded contract. Only confirmed Work Requests are eligible for invoicing.

User Manual - Vendor Management System

S/N	Term	Definition
16	SOW (Statement of Works)	A document submitted by the vendor, typically alongside a Timesheet, that outlines the specific work activities, deliverables, and timelines for a project milestone
17	RFP (Request for Proposal)	The document provided to the vendor during a project proposal invitation, which details the requirements and scope of the work being requested.
18	Re-Certification	The process a vendor must undergo to update their profile and documents when a mandatory document (e.g., business license, tax clearance) expires, or when previously validated KYC data becomes outdated or invalid.
19	Contract	A formal document awarded after a successful proposal and evaluation process, outlining the agreed scope of work, deliverables, timelines, and payment terms.
20	Referrer Email	The email address of the Afreximbank staff member who referred the vendor; this may be pre-filled or manually entered during the initial vendor registration process.
21	SOW	Statement of Work. A document describing the resources, dates and deliverables for a piece of vendor work billed to the Bank.

User Manual - Vendor Management System

S/N	Term	Definition
22	Resource	A named individual on a SOW who logs time and is billed against the engagement.
23	First Level Reviewer	The Bank staff member who reviews and either clears, returns as Not Clear, or reassigns a submitted SOW or timesheet and invoice.
24	Second Level Reviewer	The Bank staff member who approves or rejects a SOW or timesheet and invoice after First Level clearance.
25	Clear	Move a submission from Level 1 to Level 2 for the Second Reviewer to act on.
26	Not Clear	Return a submission to the vendor with a comment explaining what needs to change before it can be reviewed again.
27	Reassign Approval	Route a submission to a different First Level Reviewer without changing the department's default reviewer configuration.
28	Approve	Finalise a submission at Level 2.

User Manual - Vendor Management System

S/N	Term	Definition
29	Reject	Return a submission from Level 2 to the First Level Reviewer with a comment.
30	Timesheet	The hours document uploaded by the vendor for a resource against a SOW for a given billing cycle.
31	Invoice	The billing document uploaded by the vendor for a resource against a SOW for a given billing cycle.
32	Request Payment	The vendor action that emails the Bank's Finance team asking for settlement of an approved timesheet and invoice.
33	Payment Proof	The document uploaded by the Bank showing the vendor that Finance has settled the invoice.
34	Confirm Payment	The vendor action that acknowledges receipt of payment and moves the SOW to the terminal Paid state.
35	Awaiting Approval	Status of a submission that has been submitted for review but not yet acted on by the First Level Reviewer.
36	Level 1 Cleared	Status of a submission that the First Level Reviewer has cleared for Second Level review.

User Manual - Vendor Management System

S/N	Term	Definition
37	Level 2 Cleared	Status of a submission that both reviewers have approved. On the vendor side this reads as Approved.
38	Level 1 Rejected	Status of a submission that the First Level Reviewer has marked as Not Clear and returned to the vendor. On the vendor side this reads as Not Cleared.
39	Level 2 Rejected	Status of a submission that the Second Level Reviewer has rejected. Returns to the First Level Reviewer.
40	Payment Requested	Status of an approved timesheet and invoice after the vendor has sent the Request Payment email to Finance.
41	Awaiting Payment Confirmation	Status of a payment after the Bank has uploaded the proof and is waiting for the vendor to confirm receipt.
42	Paid	Terminal status of a SOW after the vendor has confirmed receipt of payment.
43	SWIFT Code	The 8 or 11-character bank identifier code entered under Bank Details. The system checks it when entered and rejects codes that cannot be found.

User Manual - Vendor Management System

S/N	Term	Definition
44	Invoice Confirmation Contacts	Individuals authorised to confirm invoices and banking information on behalf of the vendor. A minimum of two and a maximum of five contacts are provided under Contact Details.
45	Declared Annual Engagement Amount	The annual engagement amount for the vendor, filled in automatically from the Total cost of the work requests. The vendor cannot edit it.

10. Frequently Asked Questions (FAQs)

10.1 Registration and Account Verification

Q1: What email address should I use when registering a corporate account?

For a corporate account, use the company's official email address rather than an individual employee's email address. This keeps the account accessible if the employee who originally registered leaves the company.

Q2: I have registered but cannot log in. What should I do?

After registering, you must verify the account using the verification email sent to the registered email address.

Check your inbox and spam or junk folder for the verification email and complete the verification before attempting to log in.

Q3: I did not receive the account verification email. What should I do?

First, check your inbox and spam or junk folder.

Confirm that you registered using the correct email address. If you still cannot find the verification email, visit <https://vendors.afreximbank.net/vendor/login>, log in with the correct email and password, and a fresh verification email will be sent.

10.2 Login and Password

Q1: Which email address and password should I use to log in?

Use the same email address and password that you used during registration.

Q2: What should I do if I forget my password?

User Manual - Vendor Management System

Click Reset Password on the login page and follow the instructions to reset your password.

Q3: What should I do if I cannot log in after registering?

Confirm that you have verified the account using the verification email sent to your registered email address.

Confirm that you are using the same email address and password used during registration.

If you are still unable to log in, contact VMS Support.

Q4: I am seeing "Invalid Credentials" when trying to log in. What should I do?

The "Invalid Credentials" message appears when the email address or password entered does not match the credentials registered.

Confirm that you are using the same email address you used when signing up.

Confirm that you are entering the correct password.

If you have confirmed both and still cannot log in, click Reset Password. When resetting your password, enter the same email address you used during registration.

Use the new password to log in after the reset is complete.

Q5: I am seeing "Invalid Credentials! User Account has been locked out" when trying to log in. What should I do?

User Manual - Vendor Management System

This message appears when the account has been locked after multiple failed login attempts. The account will automatically unlock after 15 minutes.

After 15 minutes, try logging in again using the correct registered email address and password.

If you cannot remember your password or the login is still unsuccessful, click Reset Password and follow the instructions to create a new password. Use the same email address you used during registration when resetting your password.

10.3 Two-Factor Authentication (2FA)

Q1: Which authenticator application should I use?

Use Google Authenticator for VMS 2FA. Do not use another authenticator application.

Q2: What should I do during my first login?

During your first login, the system requires you to set up 2FA. Use Google Authenticator to scan the QR code displayed by the VMS and complete the setup before proceeding.

See section 2.6 Setting up Two-Factor Authentication for the full walkthrough.

Q3: What should I do if I need to reset my 2FA?

Enter an incorrect authenticator code twice. After the second failed attempt, a pop-up appears prompting you to reset your 2FA.

Click Reset 2FA. A 2FA reset email is sent to your registered email address.

User Manual - Vendor Management System

Open the email and follow the instructions to complete the reset.

On your next login, scan the new QR code using Google Authenticator to set up your 2FA again.

See section 2.6 Setting up Two-Factor Authentication for the full walkthrough.

Q4: I changed my phone and can no longer access my Google Authenticator.

What should I do?

Reset your 2FA and set up Google Authenticator again on your new device. Follow the steps in Q3 above.

10.4 Registration Data

Q1: Why is the Save and Continue button inactive?

The Save and Continue button remains inactive until all mandatory fields have been completed. Review the form and ensure that every mandatory field is filled in before proceeding.

Q2: What should I do if I cannot proceed to the next step while filling in my registration data?

Check that all mandatory fields have been completed correctly. Mandatory fields are marked on the form with a red asterisk.

If the button remains inactive after completing all mandatory fields, contact VMS Support.

Q3: Why is the Submit button greyed out on the Review and Submit page?

User Manual - Vendor Management System

The Submit button only becomes active when all mandatory sections show 100% completion.

Review the completion percentages for all sections on the Review and Submit page.

Identify any section whose Mandatory percentage is below 100% and navigate to it.

Complete the outstanding mandatory fields or required documents in that section and save.

Return to the Review and Submit page and confirm that all mandatory sections show 100%. Once all mandatory sections are 100% complete, the Submit button becomes active.

Q4: I have uploaded my mandatory document in the Document section, but the Save and Continue button is still greyed out. What should I do?

Uploading the document alone does not complete the mandatory document requirement. You must also provide the Document Expiry Date where required.

Go to the Document section and confirm that the mandatory document has been uploaded successfully.

Enter the Document Expiry Date for the uploaded document.

Check that all other mandatory fields in the section have been completed.

User Manual - Vendor Management System

Once all mandatory information has been provided, click Save and Continue. If the button remains greyed out, review the Document section again and ensure that no mandatory field or document information is incomplete.

Q5: Why is Save and continue disabled on Contact Details?

Make sure Invoice Confirmation Contacts (A) and (B) are complete, and that any extra contact you added is either complete or removed.

Q6: Why is the Add another contact option not shown?

You already have five Invoice Confirmation Contacts, the maximum. Remove one if you need to replace it.

Q7: Why is Save and continue disabled on Business Information?

Your physical address must include the Street Number, Street Name, City and Zip code.

Q8: My country is not in the country code list. What should I do?

Type only the first few letters of the country name and select it from the shorter list.

10.5 Vendor Profile and Documents

Q1: I have completed registration but haven't received clearance. What should I do?

Ensure all required documents are uploaded and valid. Check your dashboard for status updates. If your submission remains under review for longer than the expected turnaround, contact VMS Support.

Q2: Can I edit my company profile after submission?

User Manual - Vendor Management System

Yes. You can edit your profile before clearance is granted. Navigate to the Vendor Profile section, make the required changes, and save.

Q3: What happens if one of my documents expires?

You will receive a notification prompting you to upload a new, valid version. Failure to update expired documents may affect your clearance status.

Q4: How do I upload or replace documents?

Go to the Document Upload section of your profile. Click on the document name to upload a replacement or add a new document, then save.

Q5: What is the Declaration Document and why is it important?

The Declaration Document affirms your compliance with ethical standards, anti-bribery laws, and other regulatory requirements. Uploading a signed copy is mandatory before your registration can be reviewed.

Q6: How often should I update my company information?

Update your company profile whenever there is a change in legal status, contact information, documents, or ownership structure.

Q7: What file formats are accepted for uploads?

Only PDF, DOC, DOCX, PNG, and JPG formats are accepted. The maximum file size per document is 10 MB unless otherwise stated.

10.6 Proposals and Opportunities

Q1: I don't see any procurement opportunities. Am I doing something wrong?

Opportunities are only visible to vendors who were invited to participate. If you expect to see an opportunity that is not listed, confirm with the inviting department that the invitation was sent to your registered email address.

Q2: What happens after I submit a proposal?

Your proposal is locked for editing and sent for evaluation. The evaluation process can take time. You will be notified of the outcome once the evaluators have concluded their review.

Q3: Can I submit multiple proposals for the same opportunity?

No. You are allowed to submit only one proposal per opportunity. Ensure your submission is complete and accurate before clicking Submit.

10.7 Statement of Work

Q1: What is a Statement of Work (SOW)?

A SOW is a Bank document that captures the resources, dates, and deliverables for a piece of work you will bill the Bank for. You initiate one for each engagement from the Statement of work module in the Vendor Portal.

Q2: Why can I not initiate a SOW?

You need at least one SOW Resource configured before you can initiate a SOW. If none is set up, the prompt "Resources not configured! Please set it up before

User Manual - Vendor Management System
Initiating a SOW." appears when you click Initiate SOW. Click Configure SOW

Resources on the prompt, or go to Profile → Statement of Work Resource, add your resources, then return to the Statement of work module.

Q3: What does Not Cleared mean on my SOW?

The First Level Reviewer at the Bank has returned the SOW with a comment. Open the SOW view, read the comment on the right, address the feedback in the form and click Resend to submit it again for review.

Q4: What does Not Cleared mean on my timesheet and invoice?

The First Level Reviewer at the Bank has returned your timesheet and invoice with a comment. Open the SOW view, read the comment, click Update Timesheet & Invoice on the flagged resource, upload the corrected files, and click Submit Timesheet & Invoice to resubmit.

Q5: When can I upload the timesheet and invoice for a SOW?

Once the SOW status becomes Approved and the Invoice/Timesheet Submission Date has passed, an Upload Timesheet & Invoice button appears on each resource block on the SOW view.

Q6: How do I know Finance has been notified about my payment request?

After you click Request Payment, a confirmation reads "Payment request sent successfully" and the row's Timesheet & Invoice Status column changes to Payment

User Manual - Vendor Management System

Requested. Finance receives the email you configured on the Request Payment side panel.

Q7: How do I confirm I have received the payment?

When the Bank uploads the payment proof, the SOW's Timesheet & Invoice Status changes to Awaiting Payment Confirmation. Open the SOW view, review the payment proof under the Payment Proof section, and click Payment Received to move the SOW to Paid.
